A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

November 13, 2018

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments during the period ended September 30, 2018, that have affected the Fund's performance and outlook. If the Fund was established during the period, "period" represents the period from inception to the end of the fiscal period. For information on the Fund's longer-term performance, as applicable, please refer to the *Past Performance* section of the report. In this report, "Mackenzie" refers to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Results of Operations

Investment Performance

The performance of the Fund's Series A and Series LB securities is discussed below. The performance of all series is shown in the *Past Performance* section of the report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series.

During the period, the Fund's Series A and Series LB securities returned 2.0% (after deducting fees and expenses paid by the series). This compares with the MSCI EAFE (Net) Index return of 0.6%. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in the index without incurring fees, expenses and commissions, which are not reflected in the index returns.

The developed equity markets of Europe, Australasia and the Far East ("EAFE") benefited from increased economic activity over the period, as the global economy expanded despite continued trade and geopolitical uncertainty. However, currency depreciation relative to the Canadian dollar significantly reduced returns in Canadian dollar terms. The European Central Bank kept its policy rate steady, but confirmed that it will conclude its asset purchase program at the end of 2018.

Within the MSCI EAFE (Net) Index, Israel, Norway and New Zealand were the strongest performers in Canadian dollar terms, while Italy, Belgium and Austria were the weakest. From a sector perspective, energy, health care and materials were the strongest performers, while financials, real estate and consumer discretionary were the weakest.

The Fund outperformed the index because it partially hedged its foreign currency exposure, which contributed to performance primarily as the euro and British pound depreciated relative to the Canadian dollar. Stock selection and an underweight position in the financials sector, and stock selection in industrials and health care, also contributed. At a country level, stock selection in the United Kingdom, Sweden and Switzerland contributed to performance.

Stock selection in the consumer discretionary and materials sectors detracted from performance. At a country level, stock selection in Australia and exposure to South Korea detracted. The Fund's cash position also detracted as equity markets rose in local currency terms.

Over the period, portfolio activity and market effect resulted in increased exposure to the United States, Japan and Australia, while exposure to South Korea decreased and exposure to Belgium was eliminated. At the sector level, exposure to financials, industrials and consumer staples increased, while exposure to health care decreased. The Fund's cash position also decreased. Changes to the portfolio included new positions in Burford Capital Ltd. and Fanuc Corp., and the elimination of the positions in Rotork PLC and Colruyt SA.

Net Assets

The Fund's NAV declined by 38.4% to \$164.0 million at September 30, 2018, from \$266.0 million at March 31, 2018. This change was composed primarily of \$9.4 million in net income (including dividend and interest income) from investment performance, after deducting fees and expenses, and \$111.4 million in net redemptions. These net redemptions include an inflow of \$41.2 million relating to fund merger activity and a pending redemption of \$125.2 million by affiliates of Mackenzie (see *Other Related Party Transactions*) that settled on October 1, 2018. This redemption did not result in a significant change in the Fund's portfolio allocation and was managed without any adverse effect on the Fund.

See Other Related Party Transactions for the percentage of the Fund's NAV owned by related parties. As a result of these investments, the Fund is subject to large transaction risk as discussed in the Prospectus. Mackenzie manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions. At September 30, 2018, Mackenzie had received no further such notices.

Fees and Expenses

The annualized management expense ratios ("MERs") for Series A of 2.51% and for Series LB of 2.62% during the period ended September 30, 2018, were slightly lower than the MERs for the year ended March 31, 2018, which were 2.52% for Series A and 2.64% for Series LB. The MERs (before and after waivers or absorptions, if any) for each series are presented in the *Financial Highlights* section of this report. The MERs for Series F, Series PW and Series PWFB decreased due to a decrease in the management and/or administration fee rates effective June 1, 2018, as noted in the *Fund Formation and Series Information* section of the report. The MER for Series PW also decreased due to a decrease in fund costs. The MER for Series LW increased due to an increase in fund costs.

Recent Developments

In the portfolio management team's view, equity market valuations remained elevated at the end of the period. The team believes these elevated valuations reflect corporate profitability levels that could be approaching peak — or near-peak — levels as measured by their operating margins. As a result of the team's belief that a number of holdings' valuations had reached elevated levels, the team trimmed the Fund's positions in several of these holdings. The Fund's cash position therefore remained elevated at the end of the period.

Effective June 1, 2018, Series PWF securities were consolidated into Series F securities.

Following the approval of investors in Mackenzie Ivy International Equity Fund and the securities regulators, Mackenzie Ivy International Equity Fund merged into the Fund on July 6, 2018. Mackenzie does not consider this merger to be a material change from the Fund's perspective.

Related Party Transactions

The following arrangements result in fees paid by the Fund to Mackenzie or to companies affiliated with the Fund.

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Mackenzie at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

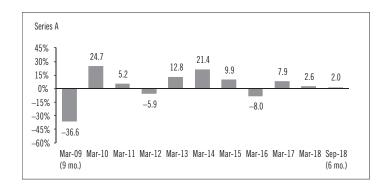

Investment funds managed by Mackenzie invest in Series R securities of the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. Series S securities are also offered on a prospectus-exempt basis to London Life Insurance Company, The Great-West Life Assurance Company and The Canada Life Assurance Company (collectively, the "Related Insurance Companies"), all of which are companies affiliated with Mackenzie. At September 30, 2018, funds managed by Mackenzie owned 5.8% of the Fund's NAV, and the Related Insurance Companies owned 38.5% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day.

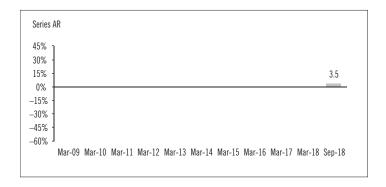

At September 30, 2018, Mackenzie had an investment of 0.1 million in the Fund (0.1% of the Fund's NAV).

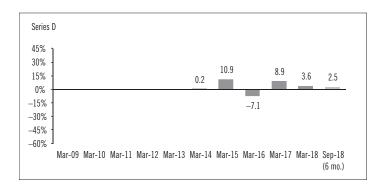

Mackenzie relied on a recommendation issued by the Mackenzie Funds' Independent Review Committee to proceed with the merger of Mackenzie Ivy International Equity Fund into the Fund in July 2018.

Past Performance

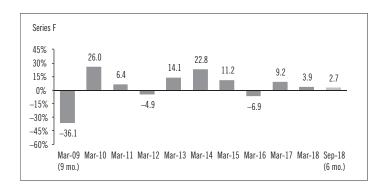

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

- (1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences can be found in the Notes to Financial Statements.
- (2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
- (3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. If in the period a series was established or reinstated, the management expense ratio is annualized from the date of inception or reinstatement. Mackenzie may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

GLOBAL EQUITY FUND

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by Mackenzie to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio, and providing other services. Mackenzie also used the management fees to fund sales commissions, trailing commissions and any other compensation (collectively "distribution-related payments") to registered dealers and brokers whose clients invest in the Fund.

LBC Financial Services Inc. ("LBC") is the principal distributor for the LBC series securities of the Fund (as listed under *Fund Formation and Series Information*) and receives a portion of the management fees that the Fund pays to Mackenzie. Under this arrangement, LBC was entitled to approximately 23% of the total management fees that Mackenzie received from the LBC series of all Mackenzie funds during the period. Mackenzie is responsible for paying all distribution-related payments to LBC-authorized dealers whose clients invest in the LBC series of the Fund.

The following dealers affiliated with Mackenzie may be entitled to distribution-related payments from Mackenzie on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation and Investors Group Financial Services Inc.

Mackenzie used approximately 43% of the total management fee revenues received from all Mackenzie funds during the period to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 36% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

Series R securities are offered only to other affiliated funds and certain institutional investors in connection with fund-of-fund arrangements.

Series S securities are offered to the Related Insurance Companies and certain other mutual funds, but may be sold to other investors as determined by Mackenzie.

Series PWF securities are no longer available for sale. Effective June 1, 2018, Series PWF securities were consolidated into Series F securities.

Series Distributed by LBC Financial Services Inc. (1360 René-Lévesque Blvd. West, 13th Floor, Montréal, Québec H3G 0A9; 1-800-522-1846; www.laurentianbank.ca/mackenzie)

Series LB and Series LW securities are no longer available for sale, except for additional purchases by investors who have held these securities since December 11, 2017.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option, various low-load purchase options and a no-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to Mackenzie if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series.
