Interim Management Report of Fund Performance

For the Six-Month Period Ended September 30, 2018

This Interim Management Report of Fund Performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You may obtain a copy of the interim financial report or annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting the SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. Every effort has been made to ensure that the information contained in this report is accurate as of the dates indicated in the report; however, the Fund cannot guarantee the accuracy or the completeness of this material. For more information, please refer to the Fund's Simplified Prospectus, Annual Information Form and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

November 13, 2018

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments during the period ended September 30, 2018, that have affected the Fund's performance and outlook. If the Fund was established during the period, "period" represents the period from inception to the end of the fiscal period. For information on the Fund's longer-term performance, as applicable, please refer to the *Past Performance* section of the report. In this report, "Mackenzie" refers to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Results of Operations

Investment Performance

The performance of the Fund's Series A securities is discussed below. The performance of all series is shown in the *Past Performance* section of the report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series.

During the period, the Fund's Series A securities returned 0.8% (after deducting fees and expenses paid by the series). This compares with a return of -0.4% for the Fund's broad-based index, the FTSE TMX Canada Universe Bond Index, and a return of 1.7% for a blended index.* All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in the index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Performance varied across global government bond markets over the period, but in general yields rose across the curve. Shorter-term yields increased significantly, causing yield curves to flatten, particularly in Canada and the United States. Emerging market bonds underperformed as a result of the strong U.S. dollar. The Canadian bond market fell over the period as yields increased in response to strong economic growth. The Canadian dollar was volatile as the benefit of a robust economy was offset by trade concerns.

The global economy expanded over the period despite continued trade and geopolitical uncertainty. The U.S. Federal Reserve raised the federal funds rate twice in response to the strengthening U.S. economy and rising inflation, while the Bank of Canada increased its policy rate once. The European Central Bank kept its policy rate steady, but confirmed that it will conclude its asset purchase program at the end of 2018. Emerging markets equities fell in response to rising interest rates, a stronger U.S. dollar and

* The blended index is composed of a 35% weighting in the FTSE TMX Canada Universe Bond Index (returned -0.4%), a 30% weighting in the ICE BofAML Global Broad Market (Hedged) Index (returned -0.3%), a 25% weighting in the MSCI AC (All Country) World (Net) Index (returned 5.2%) and a 10% weighting in the S&P/TSX Composite Index (returned 6.2%).

global trade tensions. The Canadian equity market posted a gain over the period in response to improved economic growth and strong corporate earnings. Higher oil prices led to more favourable investor sentiment toward the energy sector. Higher interest rates helped bolster Canadian bank stocks, which also benefited from improved profit margins.

Within the MSCI AC (All Country) World (Net) Index, Qatar, Israel and the United States were the strongest performers in Canadian dollar terms, while Turkey, Pakistan and Brazil were the weakest. From a sector perspective, health care, energy and information technology were the strongest performers, while financials, real estate and consumer staples were the weakest.

Within the S&P/TSX Composite Index, health care, industrials and information technology were the strongest sectors, while materials, consumer discretionary and utilities were the weakest.

The Fund currently invests all its assets in exchange-traded funds ("ETFs") managed by Mackenzie, and the following discussion reflects the activities of these underlying ETFs. The Fund outperformed the broad-based index primarily because of its allocation to equities, which outperformed fixed income. Given the Fund's mandate, the return of the blended index is a more meaningful comparison.

The Fund underperformed the blended index primarily because of the underperformance of its equity holdings.

Within the fixed income portion of the Fund, selection within corporate bonds in the communication and real estate sectors detracted from performance. Conversely, exposure to high-yield bonds and term loans contributed to performance, as did an underweight position in government bonds.

Within the equity portion of the Fund, an underweight position in the United States detracted from performance, as did an overweight position in Hong Kong. At the sector level, stock selection in health care and materials detracted. Conversely, underweight exposure to China contributed to performance. From a sector perspective, underweight exposure to financials contributed, as did an overweight position in health care that partially offset the negative impact of stock selection.

Currency exposure is actively managed to both manage risk and take advantage of opportunities at the total portfolio level. During the period, currency activities detracted from performance primarily as the British pound depreciated and the U.S. dollar appreciated relative to the Canadian dollar.

Over the period, portfolio activity and market effect resulted in increased exposure to equities and to fixed income. From a geographic perspective, exposure to Canada increased. Within the fixed income portion of the Fund, exposure to corporate bonds increased, while exposure to provincial bonds declined. The sector positioning of the equity portion of the Fund did not change significantly.

Net Assets

The Fund's NAV increased by 316.7% to \$9.7 million at September 30, 2018, from \$2.3 million at March 31, 2018. This change was composed primarily of \$7.4 million in net sales.

At September 30, 2018, 10.3% of the Fund's NAV was held by investors that individually owned 10% or more of the Fund. As a result of these investments, the Fund is subject to large transaction risk as discussed in the Prospectus. Mackenzie manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions. At September 30, 2018, Mackenzie had received no such notices.

Fees and Expenses

The annualized management expense ratio ("MER") for Series A of 2.00% during the period ended September 30, 2018, was slightly higher than the annualized MER of 1.99% for the period ended March 31, 2018. The MERs (before and after waivers or absorptions, if any) for each series are presented in the *Financial Highlights* section of this report. The MERs for Series AR, Series FB, Series FB5 and Series T5 increased due to an increase in fund costs.

Recent Developments

The Mackenzie Multi-Asset Strategy team believes that positive and negative economic factors across the macroeconomic landscape are fairly balanced. Risks include the trade war between the United States and China, which could hinder the flow of global trade and disturb several supply chains. In addition, China's crackdown on shadow banking (unregulated financial products and institutions) and attempts to reduce leverage are slowing its growth, which poses risks to economies highly exposed to China.

Nevertheless, many economic indicators look healthy around the globe, particularly in the United States. The team believes the removal of uncertainty related to trade agreements between Canada, the United States and Mexico should also benefit North American growth.

In fixed income, the team believes global markets are responding to a confluence of factors that will continue to push yields higher. These include the strong performance of the U.S. economy, which has raised market expectations for further policy rate increases. U.S. inflationary pressures are also mounting, due to the tight labour market and an economy that is operating at or near potential. Finally, central banks around the world have begun to end accommodative monetary policy, albeit at varying paces.

Effective June 1, 2018, Series PWF securities were consolidated into Series F securities, and Series PWF5 securities were consolidated into Series F5 securities.

Related Party Transactions

The following arrangements result in fees paid by the Fund to Mackenzie or to companies affiliated with the Fund.

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Mackenzie at the annual rates specified under *Fund Formation* and *Series Information* in this report and as more fully described in the Prospectus. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

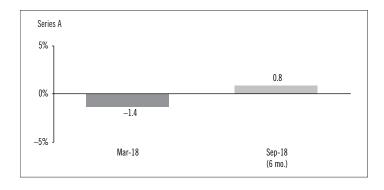

At September 30, 2018, Mackenzie had an investment of \$15,999 in the Fund (0.2% of the Fund's NAV).

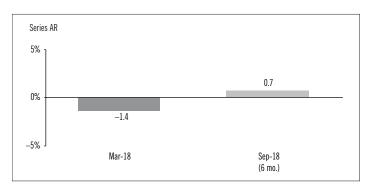

The Fund did not rely on an approval, positive recommendation or standing instruction from the Mackenzie Funds' Independent Review Committee with respect to any related party transactions.

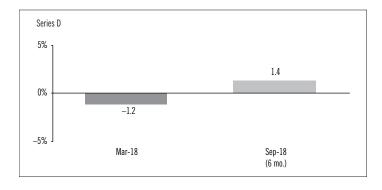

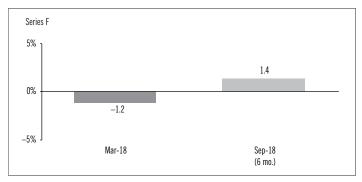

Past Performance

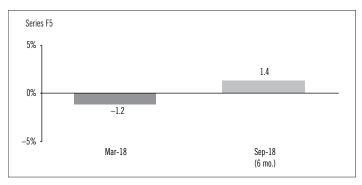

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

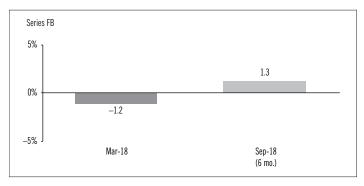

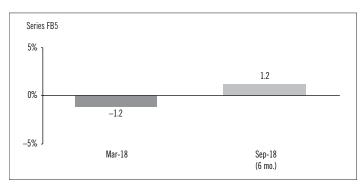

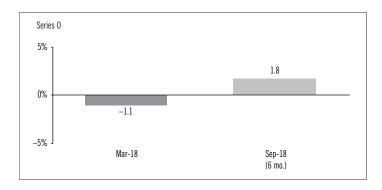

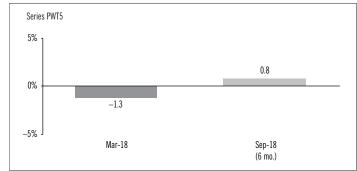

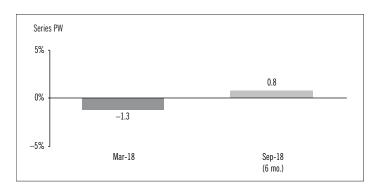

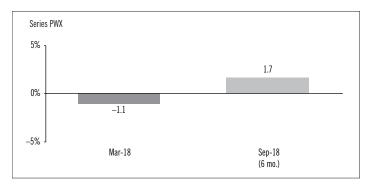

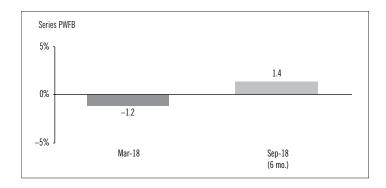

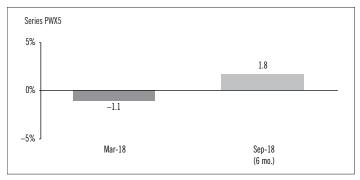

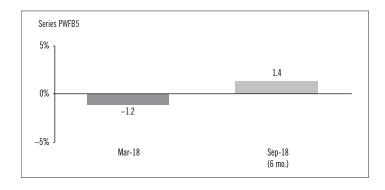

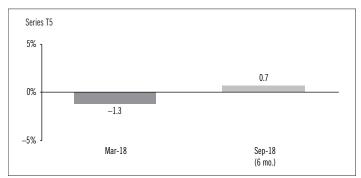

Summary of Investment Portfolio at September 30, 2018

| Effective Portfolio Allocation | % of NAV |

- (1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences can be found in the Notes to Financial Statements.
- (2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
- (3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. If in the period a series was established or reinstated, the management expense ratio is annualized from the date of inception or reinstatement. Mackenzie may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by Mackenzie to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio, and providing other services. Mackenzie also used the management fees to fund sales commissions, trailing commissions and any other compensation (collectively "distribution-related payments") to registered dealers and brokers whose clients invest in the Fund.

The following dealers affiliated with Mackenzie may be entitled to distribution-related payments from Mackenzie on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation and Investors Group Financial Services Inc.

Mackenzie used approximately 43% of the total management fee revenues received from all Mackenzie funds during the period to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 79% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series. The higher proportion of distribution-related payments is primarily attributable to sales commissions related to gross sales of redemption charge securities of the Fund.

MANAGED ASSET PORTFOLIO

Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Annual Information Form.

Date of Formation January 15, 2018

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*.

Series Offered by Mackenzie Financial Corporation (180 Queen Street West, Toronto, Ontario, M5V 3K1; 1-800-387-0614; www.mackenzieinvestments.com)

Series A and Series T5 securities are offered to retail investors investing a minimum of \$500 (\$5,000 for Series T5). Investors in Series T5 securities also want to receive a regular monthly cash flow of 5% per year.

Series AR securities are offered to retail investors in a Registered Disability Savings Plan offered by Mackenzie.

Series D securities are offered to retail investors investing a minimum of \$500 through a discount brokerage or other account approved by Mackenzie.

Series F and Series F5 securities are offered to investors who are enrolled in a dealer-sponsored fee-for-service or wrap program, who are subject to an asset-based fee rather than commissions on each transaction and who invest at least \$500 (\$5,000 for Series F5); they are also available to employees of Mackenzie and its subsidiaries, and directors of Mackenzie. Investors in Series F5 securities also want to receive a regular monthly cash flow of 5% per year.

Series FB and Series FB5 securities are offered to retail investors investing a minimum of \$500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series FB5 securities also want to receive a regular monthly cash flow of 5% per year.

Series O securities are offered only to investors investing a minimum of \$500,000 who are enrolled in Mackenzie Portfolio Architecture Service or Open Architecture Service; certain institutional investors; and certain qualifying employees of Mackenzie and its subsidiaries.

Series PW and Series PWT5 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors in Series PWT5 securities also want to receive a monthly cash flow of 5% per year.

Series PWFB and Series PWFB5 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series PWFB5 securities also want to receive a monthly cash flow of 5% per year.

Series PWX and Series PWX5 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series PWX5 securities also want to receive a monthly cash flow of 5% per year.

Series PWF and Series PWF5 securities are no longer available for sale. Effective June 1, 2018, Series PWF and Series PWF5 securities were consolidated into Series F and Series F5 securities, respectively.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option and a low-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to Mackenzie if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.
