1. NAME, FORMATION AND HISTORY OF THE FUNDS

Introduction

This annual information form contains information concerning the investment funds listed on the cover, which are referred to, collectively, as the “**Funds**”, and each individually, as a “**Fund**”, for their financial year ended March 31, 2025. The Funds do not distribute securities to retail investors and do not have a current simplified prospectus. This annual information form is prepared in accordance with Part 9 of National Instrument 81-106, *Investment Fund Continuous Disclosure* (“**NI 81-106**”), which requires an investment fund to file an annual information form if the investment fund has not obtained a receipt for a prospectus during the last twelve months preceding its financial year.

To make this document easier to read and understand, we have used personal pronouns throughout much of the text. References to “**Mackenzie Investments**”, “**Mackenzie**”, “**our**”, “**we**” or “**us**” generally refer to **Mackenzie Financial Corporation** in its capacity as manager of the Funds. References to “**you**” are directed to the reader as an investor or potential investor in the Funds.

Each of the Funds is managed by Mackenzie Investments, which is also the promoter, registrar, transfer agent and/or trustee of the Funds. The Funds are part of a larger group of mutual funds managed by us. The mutual funds within this broader group are referred to, collectively, as the “**Mackenzie Funds**”, and each individually, as a “**Mackenzie Fund**”.

In Canada, a mutual fund can be established as a unit trust, a class of shares of a corporation, or as units of a limited partnership. In this document, all Funds have been established as unit trusts.

Units of the Mackenzie Funds are sold through independent registered brokers and dealer representatives which we refer to as “**financial advisors**”.

The following plans are collectively referred to as “**registered plans**”:

- registered retirement savings plans (“**RRSPs**”), including
 - locked-in retirement accounts (“**LIRAs**”),
 - locked-in retirement savings plans (“**LRSPs**”),
 - restricted locked-in savings plans (“**RLSPs**”),
- registered retirement income funds (“**RRIFs**”), including
 - life income funds (“**LIFs**”),
 - locked-in retirement income funds (“**LRIFs**”),
 - prescribed retirement income funds (“**PRIFs**”),
 - restricted life income funds (“**RLIFs**”),
- tax free savings accounts (“**TFSAs**”),
- registered education savings plans (“**RESPs**”),
- registered disability savings plans (“**RDSPs**”),

- deferred profit-sharing plans (“**DPSPs**”), and
- first home savings accounts (“**FHSA**”).

Address of the Funds and Mackenzie Investments

Our head office and the office of each of the Funds, as well as their mailing address, is located at 180 Queen Street West, Toronto, Ontario M5V 3K1.

Formation of the Funds

Each of the Funds has been formed as a unit trust under the laws of the Province of Ontario by declaration of trust.

The Funds are currently governed by the terms of their respective Declarations of Trust. The relevant declaration of trust is amended each time a new Fund or series of a Fund is created to include the investment objectives and any other information specific to the new Fund and/or series. A list of the Declarations of Trust and the date each Fund was formed is set out in the table below:

Fund¹	Date of Declaration of Trust	Date of Formation of Fund
Mackenzie Asian Small-Mid Cap Fund	October 19, 1999	January 31, 2020
Mackenzie Board Risk Premia Collection Fund	October 19, 1999	April 26, 2019

2. INVESTMENT RESTRICTIONS AND PRACTICES

National Instrument 81-102

The Funds are subject to certain restrictions and practices contained in securities legislation, including National Instrument 81-102, *Investment Funds* (“**NI 81-102**”), which are designed in part to ensure that the investments of mutual funds are diversified and relatively liquid and to ensure the proper administration of mutual funds. We intend to

manage the Funds in accordance with these restrictions and practices or to obtain relief from the securities regulatory authorities before implementing any variations.

Exemptions from NI 81-102

The following provides a description of the exemptions that certain Funds have received from the provisions of NI 81-102, and/or a description of the general investment activity.

(A) U.S. Listed ETF Relief

Given the incorporation of the alternative mutual funds into NI 81-102, this ETF Relief is only relevant for U.S. listed exchange traded funds.

All Funds have obtained an exemption from the Canadian securities regulatory authorities which allows them to purchase and hold securities of the following types of ETFs (collectively, the “**Underlying ETFs**”):

- (a) ETFs that seek to provide daily results that replicate the daily performance of a specified widely quoted market index (the ETF’s “Underlying Index”) by a multiple of up to 200% (“Leveraged Bull ETFs”), inverse multiple of up to 100% (“Inverse ETFs”), or an inverse multiple of up to 200% (“Leveraged Bear ETFs”);
- (b) ETFs that seek to replicate the performance of gold or silver, or the value of a specified derivative whose underlying interest is gold or silver on an unlevered basis (“Underlying Gold or Silver Interest”), or by a multiple of up to 200% (collectively, the “Leveraged Gold/Silver ETFs”); and
- (c) ETFs that invest directly, or indirectly through derivatives, in physical commodities, including but not limited to agriculture or livestock, energy, precious metals and industrial metals, on an unlevered basis (“Unlevered Commodity ETFs”, together with the Leveraged Gold/Silver ETFs, collectively, the “Commodity ETFs”).

This relief is subject to the following conditions:

- a Fund’s investment in securities of an Underlying ETF must be in accordance with its fundamental investment objectives;
- the securities of the Underlying ETF must be traded on a stock exchange in Canada or the United States;
- a Fund may not purchase securities of an Underlying ETF if, immediately after the transaction, more than 10% of the NAV of the Fund would consist of securities of Underlying ETFs;
- a Fund may not purchase securities of Inverse ETFs or securities of Leveraged Bear ETFs or sell any securities short if, immediately after the transaction, the Fund’s aggregate market value exposure represented by all such securities

purchased and/or sold short would exceed 20% of the NAV of the Fund, taken at market value at the time of the transaction; and

- immediately after entering into a purchase, derivatives or other transaction to obtain exposure to physical commodities, the Fund's aggregate market value exposure (whether direct or indirect, including through Commodity ETFs) to all physical commodities (including gold); does not exceed 10% of the NAV of the Fund taken at market value at the time of the transaction.

(B) Cover relief in connection with certain derivatives

The Funds have received exemptive relief to permit each Fund to use, as cover, a right or obligation to sell an equivalent quantity of the underlying interest of the standardized future, forward or swap, when

- (a) the Funds open or maintain a long position in a debt-like security that has a component that is a long position in a forward contract or in a standardized future or forward contract, or
- (b) the Funds enter into or maintain a swap position during periods when the Funds are entitled to receive payments under the swap.

The relief is subject to the following terms:

- when the Funds enter into or maintain a swap position for periods when the Funds would be entitled to receive fixed payments under the swap, the Funds hold
 - cash cover in an amount that, together with margin on account for the swap and the market value of the swap, is not less than, on a daily mark-to-market basis, the underlying market exposure of the swap;
 - a right or obligation to enter into an offsetting swap on an equivalent quantity and with an equivalent term and cash cover that, together with margin on account for the position, is not less than the aggregate amount if any, of the obligations of the Funds under the swap less the obligations of the Funds under such offsetting swap; or
 - a combination of the positions referred to in the preceding two subparagraphs that is sufficient, without recourse to other assets of the Funds, to enable the Funds to satisfy their obligations under the swap;
- when the Funds open or maintain a long position in a debt-like security that has a component that is a long position in a forward contract, or in a standardized future or forward contract, the Funds hold
 - cash cover in an amount that, together with margin on account for the specified derivative and the market value of the specified derivative, is not

less than, on a daily mark-to-market basis, the underlying market exposure of the specified derivative;

- a right or obligation to sell an equivalent quantity of the underlying interest of the future or forward contract, and cash cover that, together with margin on account for the position, is not less than the amount, if any, by which the market price of the future or forward contract exceeds the strike price of the right or obligation to sell the underlying interest; or
- a combination of the positions referred to in the preceding two subparagraphs that is sufficient, without recourse to other assets of the Funds, to enable the Funds to acquire the underlying interest of the future or forward contract;
- the Funds will not
 - purchase a debt-like security that has an option component or an option; or
 - purchase or write an option to cover any position under section 2.8(1)(b), (c), (d), (e) or (f) of NI 81-102 if, immediately after the purchase or writing of such option, more than 10% of the NAV of the Funds at the time of the transaction would be made up of (i) purchased debt-like securities that have an option component or purchased options, in each case, held by the Funds for purposes other than hedging, or (ii) options used to cover any position under subsections 2.8(1)(b), (c), (d) (e) or (f) of NI 81-102.

(C) Foreign Sovereign Debt Investment Relief

Mackenzie Sovereign Bond Fund, Mackenzie Global Inflation-Linked Fund, Mack Global Bond Pool, and Mackenzie Global Sustainable High Yield Bond Fund and all future funds launched after September 16, 2021, that have investment objectives and strategies that permit a majority investment in fixed income securities have obtained regulatory approval to invest up to

- (a) 20% of its net assets, taken at market value at the time of purchase, in government-issued or guaranteed debt securities of any one issuer with a credit rating of “AA” or higher; and
- (b) up to 35% of its net assets in government-issued or guaranteed debt securities of any one issuer with a credit rating of “AAA” or higher.

This approval is subject to conditions, including the following:

- the two exemptions described above may not be combined for any one issuer;
- the securities that are purchased must be traded on a mature and liquid market; and
- the acquisition of the securities purchased must be consistent with the fundamental investment objectives of the Fund.

Mackenzie Enhanced Fixed Income Risk Premia Fund has obtained regulatory approval to invest up to 35% of its net assets, taken at market value at the time of purchase, in government and/or supranational agency-issued or guaranteed debt securities of any one issuer with a credit rating of “**AAA**” or higher.

This approval includes the following conditions:

- the securities that are purchased must be traded on a mature and liquid market;
- the acquisition of the securities purchased must be consistent with the fundamental investment objectives of the Fund; and
- the Fund shall not purchase additional debt securities rated “**AAA**” that are issued by any one foreign government if, immediately after the transaction, more than 35% of the net assets of the Fund, taken at market value at the time of the transaction, would be invested in debt securities issued by that one foreign government.

(D) Exemption from CFA Registration Requirements

Manulife Investment Management (US) LLC, Manulife Investment Management (Hong Kong) Limited, and the Putnam Advisory Company, LLC have received an exemption from the *Commodity Futures Act* (Ontario) (“**CFA**”) registration requirements in respect of any trades made by the Fund that they sub-advise in commodity future contracts and commodity future options traded on commodity future exchanges outside of Canada and cleared through clearing corporations outside of Canada.

(E) Seed Capital, Past Performance and Financial Data Relief

In connection with the wind up of Mackenzie Financial Capital Corporation (“**Capitalcorp**”) and the merging of certain Capitalcorp funds (each a “**Capitalcorp Fund**”) into the corresponding series of the Funds, each of Mackenzie Cundill Value Fund II, Mackenzie Emerging Markets Funds II, Mackenzie Ivy International Fund II and Mackenzie Global Resource Fund II, has received regulatory relief from the Canadian securities administrators to: (a) include in its sales communications and reports to unitholders the performance data of the Capitalcorp Funds; (b) calculate its investment risk level using the performance history of the Capitalcorp Funds; (c) disclose the start dates of the applicable series of the Capitalcorp Funds as the start dates of the applicable series of the Funds; (d) disclose the “Date series started” date of the applicable series of the Capitalcorp Funds as the “Date series started” date of the applicable series of the Funds in the Funds’ initial Fund Facts documents; (e) disclose the investments of the Capitalcorp Funds in the “Top 10 investments” and “Investment mix” tables in the Funds’ initial Fund Facts documents; (f) use the management expense ratio, trading expense ratio and fund expenses of the Capitalcorp Funds in the Funds’ initial Fund Facts documents; (g) use the performance data of the applicable series of the Capitalcorp Funds as the average return, year-by-year returns and best and worst 3-month returns of the Funds’ initial Fund Facts documents; (h) use the financial data of the Capitalcorp Funds in making the calculation required under the subheading “Fund Expenses Indirectly Borne by Investors” in the simplified prospectus of the Funds; (i) including in its annual and interim management reports of fund

performance the performance data and information derived from the financial statements and other financial information of the corresponding Capitalcorp Funds; and (j) permit the filing of the simplified prospectus of the Funds notwithstanding that the initial seed capital investment required in respect of the Funds was not satisfied.

Standard Investment Restrictions and Practices

The remaining standard investment restrictions and practices set out in NI 81-102 are deemed to be included in this annual information form. A copy of the investment restrictions and practices adopted by the Funds will be provided to you upon request by writing to us at the address shown under “**Name, Formation and History of the Funds – Address of the Funds and Mackenzie Investments**”.

As permitted under National Instrument 81-107 *Independent Review Committee for Investment Funds* (“**NI 81-107**”), the Funds may engage in inter-fund trades subject to certain conditions, including, for exchange-traded securities, that the trades are executed using the current market price of a security rather than the last sale price before the execution of the trade. Accordingly, the Funds have obtained exemptive relief to permit the Funds to engage in inter-fund trades if the security is an exchange-traded security, executed at the last sale price, immediately before the trade is executed, on an exchange upon which the security is listed or quoted.

Approval of the Independent Review Committee

The Independent Review Committee (“**IRC**”) of the Mackenzie Funds under NI 81 107 has approved a standing instruction to permit the Funds to invest in certain issuers related to us as provided for in NI 81-107. Issuers related to us include issuers that control Mackenzie or issuers that are under common control with Mackenzie. We have determined that, notwithstanding the specific provisions of NI 81-107 and the standing instruction that has been adopted, it would be inappropriate for the Funds to invest in securities issued by IGM Financial Inc. (“**IGM**”), which indirectly owns 100% of the outstanding common shares of Mackenzie. The IRC monitors the investment activity of the Funds in related issuers at least quarterly. In its review, the IRC considers whether investment decisions

- have been made free from any influence by, and without taking into account any consideration relevant to, the related issuer or other entities related to the Fund or us;
- represent our business judgment, uninfluenced by considerations other than the best interests of the Fund;
- have been made in compliance with our policies and the IRC’s standing instruction; and
- achieve a fair and reasonable result for the Fund.

The IRC must notify securities regulatory authorities if it determines that we have not complied with any of the above conditions.

For more information about the IRC, see “**Mackenzie Funds’ Independent Review Committee**”.

Change of Investment Objectives and Strategies

A change in a Fund’s investment objectives can only be made with the consent of the investors in the Fund at a meeting called for that purpose. The investment strategies explain how the Fund intends to achieve its investment objectives. As manager of the Funds, we may change the investment strategies from time to time, but will give you notice, by way of a press release, of our intention to do so if it would be a material change as defined in NI 81-106. Under NI 81-106, a change in the business, operations or affairs of a Fund is considered to be a “material change” if a reasonable investor would consider it important in deciding whether to purchase or continue to hold securities of the Fund.

3. DESCRIPTION OF SECURITIES

Each Fund is associated with a specific investment portfolio and specific investment objectives and strategies, and may offer new series, or cease to offer existing series, at any time without notice to you and without your approval.

Each Fund is entitled to the total return (including realized and unrealized gains) on the portfolio assets of that Fund, less the portion of management fees, administration fees and fund costs attributable to that Fund.

The series of each Fund are entitled to a *pro rata* share in the net return of that Fund. The series of each Fund also have the right to receive distributions, when declared, and to receive, upon redemption, the NAV of the series.

Series of Units

The expenses of each series of each Fund are tracked separately and a separate NAV is calculated for each series. Although the money which you and other investors pay to purchase securities of each series, and the expenses of each series, are tracked on a series-by-series basis in your Fund’s administration records, the assets of all series of your Fund are combined into a single pool to create one portfolio for investment purposes.

The series described in this annual information form are:

Series	Description
Series IG	Special-purpose securities generally used for fund-of-funds arrangements. Currently, the Series IG securities are available only to Investors Group Inc. (an affiliate of Mackenzie) for fund-of-fund arrangements. There are no management fees charged by us on the Series IG securities.

Series	Description
Series CL	Special-purpose securities generally used for fund-of-funds arrangements. Currently, the Series CL securities are available only to Canada Life Investment Management Ltd. (an affiliate of Mackenzie) for fund-of-fund arrangements. There are no management fees charged by us on the Series CL securities.
Series R	Special-purpose securities generally used for our fund-of-funds arrangements. Currently, the Series R securities are available only to other Mackenzie Funds and certain institutional investors for our fund-of-fund arrangements. There are no management fees charged by us on the Series R securities.
Series A, B, T5 & T8	For retail investors; T5 and T8 are for investors who want to receive a monthly cash flow. These series are closed to purchases and switches.
Series AR	For retail investors in a Registered Disability Savings Plan offered by Mackenzie Investments; only permitted if you purchased in your Mackenzie Investments RDSP account. This series is currently closed to purchases and switches.
Series D	Retail investors. Only permitted with confirmation from your dealer that you are investing through a discount brokerage account or other account approved by us, and your dealer has entered into an agreement with us relating to the distribution of these units. This series is currently closed to purchases and switches.
Series F, F5 & F8	Retail investors; Series F5 and F8 are for investors who want to receive a monthly cash flow. Only permitted with confirmation from your dealer that you are enrolled in a dealer-sponsored fee-for-service or wrap program, you are subject to an asset-based fee rather than commissions on each transaction and your dealer has entered into an agreement with us relating to the distribution of these units. Also available to our employees and employees of our subsidiaries, our directors, and, at our discretion, to former employees of our subsidiaries. These series are currently closed to purchases and switches.

Series	Description
Series FB & FB5	Retail investors; Series F5 and FB5 are for investors who want to receive a monthly cash flow. Only permitted if you negotiate an advisor service fee with your dealer, which is specified within a Series FB/FB5 agreement with us, and if your dealer has entered into an agreement with us relating to the distribution of these units. These series are currently closed to purchases and switches.
Series I	Retail investors in a Qualified Group Plan Only permitted if you are in a Qualified Group Plan, which is a Group Plan, approved by us, with a minimum of \$10,000,000 in assets. This series is currently closed to purchases and switches.
Series J	For high net worth and institutional investors. This series is currently closed to purchases and switches.
Series O	For investors enrolled in Mackenzie Portfolio Architecture Service or Open Architecture Service and certain institutional investors; Individual clients may hold Series O through an account with a dealer pursuant to a separate agreement with such dealer. This series is currently closed to purchases and switches.
Series PW, PWT5 & PWT8	For certain high net worth investors through our Private Wealth Program; Series PWT5 and PWT8 are for investors who want to receive a monthly cash flow. These series are currently closed to purchases and switches.
Series PWFB & PWFB5	For certain high net worth investors through our Private Wealth Program; Series PWFB5 is for investors who want to receive a monthly cash flow. These investors typically have large investments in the Funds, and may include high net worth investors, institutional investors, other investment funds, and other investors. Only permitted if you negotiate an advisor service fee with your dealer, which is specified within a Series PWFB/PWFB5 agreement with us, and if your dealer has entered into an agreement with us relating to the distribution of these units. These series are currently closed to purchases and switches.

Series	Description
Series PWX & PWX8	For certain high net worth investors through our Private Wealth Program; Series PWX5 and PWX8 are for investors who want to receive a monthly cash flow. These investors typically have large investments in the Funds and may include high net worth investors, institutional investors, other investment funds, and other investors. Only permitted if you negotiate an advisor service fee with your dealer, which is specified within a Series PWX/PWX8 agreement with us. These series are currently closed to purchases and switches.
Series S	Special-purpose securities generally used for our fund-of-funds arrangements. Currently, the Series S securities are available only to other Mackenzie Funds and certain institutional investors for our fund-of-fund arrangements. Investors pay a negotiated management fee directly to us. This series is currently closed to purchases and switches.
Series U	For retail investors, only permitted if your dealer has entered an agreement to sell Series U and to accept a reduced trailing commission. This series is currently closed to purchases and switches.
Investor Series	For retail investors. This series pays your dealer a reduced trailing commission. This series is currently closed to purchases and switches.

We may change the minimum investment requirements or terms of eligibility for prospective investors in the series of units at any time.

Distributions

Each Fund intends to distribute sufficient net income and net capital gains to its investors each year to ensure that each Fund does not pay ordinary income tax under Part I of the *Income Tax Act* (Canada). A Fund may also distribute returns of capital. A Fund may pay a distribution of net income, net capital gains and/or returns of capital at such time or times as we, acting as manager, in our discretion, determine.

Liquidation or Other Termination Rights

If a Fund, or a particular series of units of a Fund, is ever terminated, each security that you own will participate equally with each other security of the same series in the

assets of the Fund attributable to that series after all of the Fund's liabilities (or those allocated to the series of units being terminated) have been paid or provided for.

Conversion and Redemption Rights

Units of most Funds may be exchanged for other securities of that Fund or another Mackenzie Fund (a "switch") as described under "**Purchases and Switches (Exchanges of units)**" and may be redeemed as described under "**How to Redeem**".

Voting Rights and Changes Requiring Investor Approval

You have the right to exercise one vote for each security held at meetings of all investors of your Fund and at any meetings held solely for investors of that series of securities. We are required to convene a meeting of investors of a Fund to ask them to consider and approve, by not less than a majority of the votes cast at the meeting (either in person or by proxy), any of the following material changes if they are ever proposed for the Fund:

- a change to the basis of the calculation of management fee rates or of other expenses that are charged to the Fund or to you, which could result in an increase in charges to the Fund or to you, unless (i) the contract is an arm's length contract with a party other than us or an associate or affiliate of ours for services relating to the operation of the Fund, and (ii) you are given at least 60 days' written notice of the effective date of the proposed change, or unless (i) the mutual fund is permitted to be described as "no-load", and (ii) the investors are given at least 60 days' written notice of the effective date of the proposed change. Similarly, the introduction of certain new fees by us for the Fund which may be payable by the Fund or investors of the Fund would also require the approval of a majority of the votes cast at a meeting of investors of the Fund;
- a change of the manager of the Fund (other than a change to an affiliate of ours);
- any change in the investment objectives of the Fund;
- any decrease in the frequency of calculating the NAV for each series of securities;
- certain material reorganizations of the Fund; and
- any other matter which is required by the constating documents of the Fund, by the laws applicable to the Fund, or by any agreement to be submitted to a vote of the investors in the Fund.

Other Changes

You will be provided with at least 60 days' written notice of

- a change of auditor of the Fund; and
- certain reorganizations with, or transfer of assets to, another mutual fund, if the Fund will cease to exist thereafter and you will become a securityholder of the other Fund (otherwise an investor vote will be required).

For most Funds, we generally provide at least 30 days' notice to you (unless longer notice requirements are imposed under securities legislation) to amend the applicable Declaration of Trust in the following circumstances:

- when the securities legislation requires that written notice be given to you before the change takes effect; or
- when the change would not be prohibited by the securities legislation and we reasonably believe that the proposed amendment has the potential to adversely impact your financial interests or rights, so that it is equitable to give you advance notice of the proposed change.

For most Funds, we are generally entitled to amend the applicable Declaration of Trust, without prior approval from or notice to you, if we reasonably believe that the proposed amendment does not have the potential to adversely affect you or

- to ensure compliance with applicable laws, regulations or policies;
- to protect you;
- to remove conflicts or inconsistencies between the Declaration of Trust and any law, regulation or policy affecting the Fund, trustee or its agents;
- to correct typographical, clerical or other errors; or
- to facilitate the administration of the Fund or to respond to amendments to the *Income Tax Act* (Canada) which might adversely affect the tax status of the Fund or you if no change is made.

4. VALUATION OF PORTFOLIO SECURITIES

The portfolio securities of each Fund are valued as at the close of trading on the Toronto Stock Exchange (the “**TSX**”) (the “**valuation time**”) on each trading day. A “**trading day**” is any day that the TSX is open for trading. The value of the portfolio securities and other assets of each Fund is determined by applying the following rules:

- Cash on hand or on deposit, bills and notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received are generally valued at their full amount, unless we have determined that any of

these assets are not worth the full amount, in which event, the value shall be deemed to be the value that we reasonably deem to be the fair value.

- Precious metals (certificates or bullion) and other commodities are valued at their fair market value, generally based on prevailing market prices as reported on exchanges or other markets.
- Portfolio securities listed on a public securities exchange are valued at their close price or last sale price reported before the valuation time on that trading day. If there is no close price and if no sale is reported to have taken place before the valuation time on that trading day, they are valued at the average of the last bid and ask prices reported before that time on that trading day.
- Unlisted portfolio securities of the Funds traded on an over-the-counter market are valued at the last sale price reported before the valuation time on that trading day. If no sale is reported to have taken place before the valuation time on that trading day, they are valued at the average of the last bid and ask prices reported before that time on that trading day.
- Notwithstanding the foregoing, if portfolio securities are interlisted or traded on more than one exchange or market, we shall use the close price or last sale price or the average of the last bid and ask prices, as the case may be, reported before the valuation time on the exchange or market that we determine to be the principal exchange or market for those securities.
- Fixed-income securities listed on a public securities exchange will be valued at their close price or last sale price before the valuation time on that trading day, or if there is no close price and if no sale is reported to have taken place before the valuation time on that trading day, at the average of the last bid and ask prices before that time on that trading day.
- Non-exchange traded fixed-income securities of the Funds are valued at their fair value based on prices supplied by established pricing vendors, market participants or pricing models, as determined before the valuation time on that trading day.
- Where a Fund owns securities issued by another mutual fund (an “**Underlying Fund**”), the securities of the Underlying Fund are valued at the price calculated by the manager of the other mutual fund for the applicable series of securities of the other mutual fund for that trading day in accordance with the constating documents of the other mutual fund.
- Long positions in options, debt-like securities and warrants are valued at the current market value of their positions.
- Where an option is written by a Fund, the premium received by the Fund for those options is reflected as a deferred credit. The deferred credit is valued at an amount equal to the current market value of the option which would have the effect of closing the position. Any difference resulting from revaluation shall be

treated as an unrealized gain or loss on investment. The deferred credit shall be deducted in calculating the NAV of the Fund. The Fund's portfolio securities which are the subject of a written option shall continue to be valued at their current market value as determined by us.

- Foreign currency hedging contracts are valued at their current market value on that trading day with any difference resulting from revaluation being treated as an unrealized gain or loss on investment.
- The value of a forward contract or swap is the gain or loss on the contract that would be realized if, on that trading day, the position in the forward contract or the swap were to be closed out.
- The value of a standardized future is,
 - if the daily limits imposed by the futures exchange through which the standardized future was issued are not in effect, the gain or loss on the standardized future that would be realized if, on that trading date, the position in the standardized future was closed out, or
 - if the daily limits imposed by the futures exchange through which the standardized future was issued are in effect, based on the current market value of the underlying interest of the standardized future.
- Margin paid or deposited on standardized futures or forward contracts is reflected as an account receivable and margin consisting of assets other than cash is noted as held as margin.
- Portfolio securities, the resale of which are restricted or limited by law or by means of a representation, undertaking or agreement by the Fund are valued at the lesser of
 - their value based upon reported quotations in common use on that trading day; and
 - the market value of portfolio securities of the same class or series of a class, whose resale is not restricted (the "related securities") less a discount which reflects the difference between the acquisition cost of the securities versus the market value of the related securities on the date of the purchase; this amount decreases over the restricted period in proportion until the securities are no longer restricted;
- Portfolio securities that are quoted in foreign currencies are converted to Canadian dollars using an exchange rate as of the close of the North American markets on that trading day.
- Notwithstanding the foregoing, portfolio securities and other assets for which market quotations are, in our opinion, inaccurate, unreliable, not reflective of all

available material information or not readily available, are valued at their fair value as determined by us.

If a portfolio security cannot be valued under the foregoing rules or under any other valuation rules adopted under applicable securities laws, or if any rules we have adopted are not set out under applicable securities laws but at any time are considered by us to be inappropriate under the circumstances, then we will use a valuation that we consider to be fair, reasonable and in your best interest. In those circumstances, we would typically review current press releases concerning the portfolio security, discuss an appropriate valuation with other portfolio managers, analysts, the Investment Funds Institute of Canada and consult other industry sources to set an appropriate fair valuation. If at any time the foregoing rules conflict with the valuation rules required under applicable securities laws, we will follow the valuation rules required under applicable securities laws.

The constating documents of each of the Funds contain details of the liabilities to be included in calculating the NAV for each series of securities of each of the Funds. The liabilities of a Fund include, without limitation, (i) all bills, notes and accounts payable, (ii) all management fees, administration fees and fund costs payable or accrued, (iii) all obligations for the payment of money or property, including the amount of any declared but unpaid distributions; (iv) all allowances authorized or approved by us for taxes (if any) or contingencies; and (v) all other liabilities of the Fund of whatsoever kind and nature, except liabilities represented by outstanding units of the Fund (as applicable). We will determine in good faith whether such liabilities are series expenses or common expenses of the Funds. In calculating the NAV for each series of units, we will use the latest reported information available to us on each trading day. The purchase or sale of portfolio securities by a Fund will be reflected in the first calculation of the NAV for each series of units after the date on which the transaction becomes binding.

Within the past three (3) years, we have not exercised our discretion to deviate from the Funds' valuation practices described above.

Differences from International Financial Reporting Standards

In accordance with amendments to NI 81-106, the fair value of a portfolio security used to determine the daily price of the Fund's securities for purchases and redemptions by investors will be based on the Fund's valuation principles set out above, which may not be the same as the requirements of IFRS Accounting Standards. Hence, the reported value of securities held by a Fund may differ from what is reported in the annual and interim financial statements.

5. CALCULATION OF NET ASSET VALUE

The NAV of a Fund, as of any valuation time, is the market value of the Fund's assets less its liabilities. If the Fund offers different series of Units, the series share a common pool of assets and liabilities with a single investment objective.

After the close of business on each trading day, we will calculate a separate NAV for each series of securities of each Fund because management fees, administration fees and fund costs for each series are different. A "valuation date" is each business day or any

other day designated by the Manager or which the NAV and NAV per unit of a Mackenzie Fund is calculated.

For each series of each Fund, the NAV per security is calculated by

- **adding** up the series' proportionate share of the cash, portfolio securities and other assets of the Fund;
- **subtracting** the liabilities applicable to that series of securities (which includes the series' proportionate share of common liabilities, plus liabilities directly attributable to the series); and
- **dividing** the net assets by the total number of securities of that series owned by investors.

The NAV per unit applied to purchase and redemption orders of securities of each Fund will generally increase or decrease on each trading day as a result of changes in the value of the portfolio securities owned by the Fund. When dividends or distributions (other than management expense distributions) are declared by a series of a Fund, the NAV per security of that series will decrease by the per-security amount of the dividends or distributions on the payment date.

The NAV per security for purchases and redemptions of securities of the Funds is the value first calculated after the receipt by us of all appropriate documents pertaining to a purchase or redemption order.

The NAV of each Fund and the NAV per security is available to the public at no cost by calling 1-800-387-0614.

6. PURCHASES AND SWITCHES (EXCHANGES OF UNITS)

Purchase of Units

Series R, Series IG or Series CL units of the Funds are available for purchase by other Mackenzie Funds and by certain other institutional investors, all of whom are "accredited investors".

Switches of Securities

You may not switch among series within a Fund but you may switch between Funds. A switch is subject to any eligibility requirements being met.

You should know the following information about switches:

- Your dealer can charge you a switch fee of up to 2% of the value of the securities switched for the services which it provides to you on the exchange.
- The security price on a switch of securities is based on the Fund's first calculation of NAV for the series of securities after your switch order has been received in good order.

The following table summarizes which switch transactions will be taxable to you if your securities are held outside a registered plan. See “**Income Tax Considerations**” for more information about the Canadian federal income tax considerations that may arise if you switch or redeem your investment in a Fund.

Type of Switch	Taxable	Non-Taxable
From any series to any other series of the same Fund		✓
All other switches	✓	

Delivery of Statements and Reports

We or your financial advisor or dealer will send you

- confirmation statements when securities of a Fund are purchased, switched or redeemed by you or your registered plan;
- account statements;
- at your request, annual audited financial statements and/or semi-annual unaudited financial statements for a Fund and/or Fund annual management reports of fund performance and/or interim management reports of fund performance; and
- if applicable, we will send tax statements to you each year identifying the taxable portion of your distributions, the return of capital component of distributions and redemption proceeds paid to you for each year. Tax statements will not be sent to you if you did not receive distributions or redemption proceeds, or if units are held in your registered plan.

You should retain all your confirmations and account statements to assist with the preparation of your tax return and calculations of the adjusted cost base of your units for tax purposes. Please note that each of these documents is also available to you electronically at www.mackenzieinvestments.com through InvestorAccess (you must register for this service)

7. HOW TO REDEEM UNITS

Redemption of Units

You may redeem units of the Mackenzie Funds through your financial advisor or us. Your financial advisor is your agent to provide you with investment recommendations to meet your own risk/return objectives and to place orders on your behalf. We are not liable for the recommendations given to you by your financial advisor.

If we receive your order before 4:00 p.m. (Toronto time) on any day on which the Toronto Stock Exchange is open for trading, we will process your order at the NAV per

security calculated later that day. Otherwise, we will process your order at the NAV per security calculated on the next trading day. We may process orders at an earlier time if the Toronto Stock Exchange closes for trading earlier on a particular day. (Orders received after that earlier closing time would be processed on the next trading day).

The amount that you will receive for your redemption order is based on the series NAV per security that is next calculated for that series of securities after your redemption order has been received in good order. Your redemption order must be in writing or, if you have made arrangements with your dealer, by electronic means through your dealer. If you have a security certificate, you must present the certificate at the time of your redemption request. To protect you from fraud, for redemptions above certain dollar amounts, your signature on your redemption order (and certificate, if applicable) must be guaranteed by one of a bank, trust company, member of a recognized stock exchange or any other organization satisfactory to us.

If you request more than one redemption at a time, your redemption requests will be processed in the order in which they are received. Redemption orders involving transfers to or from registered plans may be delayed until all administrative procedures involved with registered plans are complete.

If we do not receive everything we need to complete your redemption order within ten (10) trading days after the redemption date, under securities law, we are required on that tenth (10th) trading day to purchase the same number of securities which you redeemed. We will apply your redemption proceeds to the payment required for those securities. If the NAV per unit has decreased since the redemption date, the Fund must keep the excess proceeds. If the NAV per unit has increased since that date, you or your dealer will be required to pay the Fund the deficiency and any additional expenses of processing the repurchase order. Your dealer may require you to pay this amount if you were the cause of the failed redemption order.

If the market value of your investment no longer meets the specified minimum investment required because you redeem securities, we may, at our discretion, redeem your securities, close your account and return the proceeds of the redemption to you.

We will not redeem your securities if their value drops below the specified minimum investment requirement as a result of a decline in the NAV per security rather than a redemption of your securities.

See **“Income Tax Considerations”** for information about the Canadian federal income tax considerations that may arise if you redeem your investment in a Fund.

Sales Charge Purchase Option

If you paid your dealer a sales charge at the time of purchase, there is no charge to redeem your units.

In all cases, there is no charge to sell Series R, Series IG, or Series CL units of a Fund.

Suspension of Redemption Rights

We may suspend the redemption of securities of a Fund or may postpone the date of payment upon redemption

- during any period when normal trading is suspended on a stock exchange, options exchange or futures exchange within or outside Canada on which securities are listed and traded or on which specified derivatives are traded, which represent more than 50% by value or underlying market exposure of the total assets of the Fund without allowance for liabilities, and if those portfolio securities or specified derivatives are not traded on any other exchange that represents a reasonably practical alternative for the Fund, or
- with the prior permission of the Ontario Securities Commission (the “**OSC**”).

For the purposes of making this determination, the Fund will also be considered to own directly the securities owned by any Underlying Fund whose securities are owned by the Fund.

During any period of suspension, there will be no calculation of the NAV for any series of securities of the Fund and the Fund will not be permitted to issue, redeem or switch any securities.

The issue, redemption and switch of securities and the calculation of the NAV for each series of securities will resume:

- if the suspension resulted from the suspension of normal trading on one or more exchanges, when normal trading resumes on these exchanges; or
- if the suspension occurred with the prior permission of the OSC, when the OSC declares the suspension ended.

In the event of a suspension,

- if you have placed a purchase order for a series of securities of the Fund, you may either withdraw the purchase order prior to termination of the suspension or receive securities of the series based on the series NAV per security next calculated after the termination of the suspension; and
- if you have requested the redemption or switch of units of the Fund, as applicable, but the redemption or switch proceeds cannot be calculated because of the suspension, you may either withdraw your request prior to termination of the suspension, or
 - in the case of redemption, receive payment based on the series NAV per security, less the applicable redemption charge, if any, next calculated after the termination of the suspension; or
 - in the case of a switch, have the securities switched on the basis of the series NAV per security next calculated after the termination of the suspension.

If we have received your redemption request and the redemption proceeds have been calculated prior to a suspension, but payment of the redemption proceeds has not yet been made, the Fund will pay your redemption proceeds to you during the suspension period.

8. RESPONSIBILITY FOR FUND OPERATIONS

Management Services

We are the manager, trustee and transfer agent/registrar of the Funds. You may contact us concerning the Funds or your accounts at:

Mackenzie Financial Corporation
180 Queen Street West
Toronto, Ontario M5V 3K1
Telephone: 1-800-387-0614
Website: www.mackenzieinvestments.com
E-mail: service@mackenzieinvestments.com

The documents comprising each Fund's permanent information record and the registers of investors of each of the Funds are maintained at our office in Toronto.

In our capacity as manager of the Funds, we provide the staff necessary to conduct the Funds' day-to-day operations under the terms of the Master Management Agreements described under "**Material Contracts - Master Management Agreements**". The services that we provide to the Funds, as manager, include the following:

- in-house portfolio managers or arranging for external sub-advisors to manage the Funds' portfolios;
- arranging fund administration personnel to process portfolio trades and to provide daily calculations of the value of the Funds' portfolio securities, the NAV of the Funds, and the NAV per security for each series of the Funds;
- transfer agent/registrar personnel to process purchase, switch and redemption orders;
- promoting the sales of each Fund's units through independent financial advisors in each province and territory of Canada;
- customer service personnel to respond to dealer and investor enquiries concerning investor accounts; and
- all other support personnel to ensure that the Funds' operations are conducted in an efficient manner.

From time to time, we engage outside parties as agents to assist us in providing management and administrative services to the Funds. As manager of the Funds, we determine the terms of engagement and compensation payable by the Funds to those agents. We have engaged sub-advisors with specialized skills or geographic expertise

pertinent to local markets who provide portfolio management services and portfolio security selection for all or part of a Fund's portfolio. In the case of sub-advisors, we are responsible for payment of their compensation out of our management fees received from the Funds and for monitoring their compliance with the Funds' investment objectives and strategies, but we do not pre-approve their trades on behalf of the Funds. For more information about these sub-advisors, see "**Portfolio Management Services**". We have also engaged CIBC Mellon Trust Company ("**CIBC Mellon**") as Fund Administrator. For more information about CIBC Mellon, please see "**Fund Administrator**."

B2B Trustco is the trustee of the registered plans sponsored by us.

Directors and Executive Officers of Mackenzie Investments

The names, municipalities of residence and principal occupations during the preceding five (5) years for each of the directors and executive officers of Mackenzie Investments are set out in the tables below. For directors and executive officers who have been with us for more than five (5) years only their current position is shown.

Name and municipality of residence	Position
Luke Gould Winnipeg, Manitoba	Director, Chairman, President and Chief Executive Officer of Mackenzie Investments; Ultimate Designated Person of Mackenzie Investments; Director and/or officer of affiliated entities of Mackenzie Investments Previously, Executive Vice-President, Finance and Chief Financial Officer of Mackenzie Investments, IGM ¹ , and Investors Group Inc. ² ; Director of Investors Group Financial Services Inc. ² and Investors Group Securities Inc. ²

¹ Mackenzie Investments' parent company.

² An affiliate of Mackenzie Investments. Effective July 1, 2025, Investors Group Inc. will change its name to IGWM Inc.

³ A subsidiary of Mackenzie Investments.

Portfolio Management Services

Although we are the portfolio manager for all of the Funds, the portfolio investments of the Funds are either managed directly by us or by sub-advisors hired by us.

Each of the portfolio managers has primary responsibility for the investment advice given to the accounts that he/she manages or co-manages. On a continuing basis, each portfolio manager evaluates the accounts for which he/she has responsibility, including the percentage that is invested in a type of security generally or in a particular security, diversification of holdings among industries and, in general, the makeup of the account.

We and the sub-advisors also provide portfolio management services to other mutual funds and private accounts. If the availability of any particular portfolio security is limited and that security is appropriate for the investment objective of more than one mutual fund or private account, the securities will be allocated among them on a *pro rata* basis or other equitable basis, having regard to whether the security is currently held in any of the portfolios, the relevant size and rate of growth of the accounts and any other factors that we or the sub-advisors, as applicable, consider reasonable.

Under securities law, we are required to advise you that there may be difficulty enforcing legal rights against a portfolio manager or sub-advisor if the portfolio manager or sub-advisor is resident outside Canada. At present, Mackenzie Investments Corporation, Mackenzie Investments Asia Limited, Mackenzie Investments Europe Limited, Manulife Investment Management (US) LLC, and Manulife Investment Management (Hong Kong) Limited are the only sub-advisors of the Funds not registered with a securities authority in Canada. As manager of the Funds, we are responsible for the sub-advisors' compliance with the overall investment objectives and strategies of the Funds but do not provide prior approval or review of specific portfolio security investment decisions taken by any sub-advisor.

Details of the portfolio management agreements entered into between us and the sub-advisor firms are set out under "**Portfolio Management Agreements**".

The tables below describe the portfolio manager or sub-advisor and its principal location and, the lead portfolio managers for each Fund, their years of service with that firm and their most recent five (5) years' business experience.

Mackenzie Financial Corporation, Toronto, Ontario

We provide portfolio management services directly to each of the following Funds:

Mackenzie Broad Risk Premia Collection Fund
Mackenzie Canadian Sustainable Bond Fund
Mackenzie Enhanced Equity Risk Premia Fund
Mackenzie Enhanced Fixed Income Risk Premia Fund

Name and Title	With firm since	Principal occupation in the last 5 years
Michael Bishopp, Managing Director	2008	Global Co-head of Product Strategy within BlackRock Systematic Active Equity

Brokerage Arrangements

Investment portfolio brokerage transactions for the Funds are arranged by us as manager/ portfolio manager, where applicable or by the applicable sub-advisors through a large number of brokerage firms. Brokerage fees for the Funds are usually paid at the most favourable rates available to us or the respective portfolio managers or sub-advisors, based on their respective entire volumes of Fund trading as managers and/or portfolio managers or sub-advisors of significant mutual fund and other assets and subject to the rules of the appropriate stock exchange. Many of the brokerage firms who carry out brokerage transactions for the Funds may also sell securities of those Funds to their clients. Investment portfolio brokerage transactions carried out by Funds with sub-advisors will be allocated in accordance with their existing brokerage policies.

From time to time, we and certain sub-advisors may also allocate brokerage transactions to compensate brokerage firms for general investment research, including provision of industry and company analysis, economic reports, statistical data pertaining to the capital markets, portfolio reports and portfolio analytics, trading data and other services that assist in carrying out investment decision-making services to the Funds for the portfolio management services that we or the sub-advisors provide. Such transactions will be allocated with appropriate regard to the principles of a reasonable brokerage fee, benefit to the Funds and best execution of the brokerage transactions. We or the sub-advisor will attempt to allocate the Funds’ brokerage business on an equitable basis, bearing in mind the above principles. Neither we nor the sub-advisor is under a contractual obligation to allocate brokerage business to any specific brokerage firm. Other than fund-on-fund

investments for certain Mackenzie Funds, brokerage transactions are not carried out through us or any companies that are affiliated with us.

Since the date of the last annual information form, certain third-party companies provided certain services to us and certain sub-advisors in connection with the Funds and contributions were paid for by the Funds (also known as “**soft dollars**”), including the provision of industry and company analysis, economic reports, statistical data pertaining to the capital markets, portfolio reports and portfolio analytics. For more information and to obtain the name of these companies, you can contact us at 1-800-387-0614 or by email at service@mackenzieinvestments.com. Please note that we face a potential conflict of interest by obtaining services using soft dollars. This conflict exists because we are able to use these services to manage the Funds without paying cash for these services. This reduces our expenses to the extent that we would have paid for these services directly had they not been paid for using soft dollars. Certain Mackenzie Funds may generate soft dollars used to purchase services that ultimately benefit other Mackenzie Funds or other accounts managed by the sub-advisors, for which we, or the applicable sub-advisor, provides portfolio management services, effectively cross-subsidizing the other Mackenzie Funds that benefit directly from the service. For instance, fixed-income funds normally do not generate soft dollars to pay for products. Therefore, where services used to manage fixed-income funds are paid for using soft dollars, the soft dollars have been generated entirely by equity funds. In other words, the fixed-income funds receive the benefit of these services even though they have been paid for by the equity funds.

Trustee

We are the trustee of the Funds. With certain exceptions, under each Declaration of Trust of the Funds, the trustee may resign or may be removed by the manager upon 90 days' notice. Pursuant to the Declarations for the Funds, where the trustee resigns, is removed or is otherwise incapable of acting, the manager can appoint a successor trustee. Prior written notice and investor approval of the appointment of a successor trustee is not required if we resign in favour of an affiliate. See also “**Voting Rights and Changes Requiring Investor Approval**”.

Custodian

Pursuant to a Master Custodian Agreement (as defined below) between us, on behalf of the Funds, and Canadian Imperial Bank of Commerce (“**CIBC**”), Toronto, Ontario, CIBC has agreed to act as custodian for the Funds. We have a third-party relationship with CIBC. Neither the custodian nor sub-custodian is our affiliate nor associate. For more information about the Master Custodian Agreement, see “**Material Contracts - Master Custodian Agreement**”.

The custodian receives and holds all cash, portfolio securities and other assets of each Fund for safekeeping and will act upon our instructions with respect to the investment and reinvestment of each Fund's assets from time to time. Under the terms of the custodian agreement and subject to the requirements of the Canadian Securities Administrators, the custodian may appoint one or more sub-custodians to facilitate effecting portfolio transactions outside of Canada. The fees for custody safekeeping services are calculated on an individual Fund basis according to that Fund's cash and securities on deposit with

the custodian and paid by us out of the administration fee it receives from the Funds. The fees for securities transactions are calculated on an individual Fund basis according to the portfolio security transactions undertaken for the Fund and are paid by the Funds.

Other than cash or securities that may be deposited as margin, CIBC will hold all of the Funds' Canadian cash, securities and other assets in Toronto. Foreign securities and related cash accounts will be held either at an office of CIBC or by its sub-custodians.

Securities Lending Agents

We, on behalf of the Funds, have entered into a Securities Lending Authorization Agreement dated May 6, 2005, as amended, with CIBC of Toronto, Ontario, the custodian of the Funds and The Bank of New York Mellon ("**BNY Mellon**") of New York, New York (the "**Securities Lending Agreement**"). The securities lending agents are not our affiliate or our associate.

The Securities Lending Agreement appoints and authorizes CIBC and BNY Mellon to act as agent for securities lending transactions for those Funds that engage in securities lending and to execute, in the applicable Fund's name and on its behalf, securities lending agreements with borrowers in accordance with NI 81-102. The Securities Lending Agreement requires that the collateral received by a Fund in a securities lending transaction must generally have a market value of 105%, but never less than 102%, of the value of the securities loaned. Under the Securities Lending Agreement, CIBC and BNY Mellon agree to indemnify us from certain losses incurred in connection with its failure to perform any of its obligations under the Securities Lending Agreement. The Securities Lending Agreement may be terminated at any time at the option of either party upon 30 days' prior notice to the other party.

Lenders

We, on behalf of the Funds, have entered into prime brokerage documentation with BMO Nesbitt Burns Inc. and Scotia Capital Inc., dated April 27, 2018, as amended (each, a "**Prime Broker Agreement**"). Pursuant to the terms of the Prime Broker Agreements, the Funds may borrow money from BMO Nesbitt Burns Inc. and/or Scotia Capital Inc. for investment purposes in accordance with its investment objectives and strategies.

Neither BMO Nesbitt Burns Inc. nor Scotia Capital Inc. is an affiliate or associate of Mackenzie.

Fund Administrator

CIBC Mellon is the Fund Administrator. The Fund Administrator is responsible for certain aspects of the day-to-day administration of the Funds, including NAV calculations and fund accounting.

Mackenzie Funds' Independent Review Committee

For information on the Mackenzie Funds' IRC and the role it fulfils with respect to the Funds, see "**Fund Governance – Mackenzie Funds' Independent Review Committee**".

Auditor

The auditor of the Funds is KPMG LLP, Chartered Professional Accountants, Toronto, Ontario.

9. CONFLICTS OF INTEREST

Principal Holders of Units

Shares of Mackenzie Investments: IGM, Winnipeg, Canada, indirectly owns all of the outstanding voting shares of Mackenzie Investments. As of May 31, 2025, Power Financial Corporation beneficially owned, directly and indirectly, 157,132,080 common shares of IGM representing 66.492% of the outstanding voting shares of IGM (excluding 0.21% held by The Canada Life Assurance Company in its segregated funds or for similar purposes). Power Corporation of Canada owned, directly and indirectly, 100% of the outstanding voting shares of Power Financial Corporation. The Desmarais Family Residuary Trust, a trust for the benefit of the members of the family of the late Mr. Paul G. Desmarais, has voting control, directly and indirectly, of Power Corporation of Canada.

Directors and Executive Officers of Mackenzie Investments: As of May 31, 2025, the directors and executive officers of Mackenzie Investments beneficially owned, directly or indirectly, in aggregate, less than 1% of the common shares of IGM and less than 1% the common shares of any service provider to us or the Funds.

Independent Review Committee: As of May 31, 2025, the members of the IRC beneficially owned, directly or indirectly, in aggregate, less than 1% of the common shares of IGM and less than 1% the common shares of any service provider to us or the Funds.

Units of the Funds: As of May 31, 2025, the only persons known to us to own, beneficially or of record, directly or indirectly, more than 10% of the outstanding securities of any series of the Funds were the following investors:

Affiliated Entities

As of the date of this annual information form, no person or company which is an “affiliated entity” to us (as this term is defined in the form requirement under National Instrument 81-101) provides services to the Funds or to us in relation to the Funds, other than the companies listed below. The amount of fees received from the Funds by any “affiliated entity” is contained in the audited financial statements of the Funds.

As disclosed above under “**Responsibility for Fund Operations - Management Services**”, in addition to being our senior officers, certain individuals also serve as senior officers of other affiliated entities, including Investors Group Inc.

Effective July 1, 2025, Investors Group Inc. will change its name to IGWM Inc., and additionally, Investors Group Financial Services Inc. and Investors Group Securities Inc. will merge into a single, dual-registered dealer named IG Wealth Management Inc. that will operate as an investment dealer with a dedicated mutual fund division.

The following diagram describes the relevant corporate relationships within the Power Group of Companies, as of May 31, 2025:

NOTES:

1. Sagard Holdings Participation Inc. is 100% owned by Power Corporation of Canada.
2. Sagard Holdings Inc. is 100% owned by Sagard Holdings Participation Inc.
3. Power Corporation of Canada directly controls 100% of Power Financial Corporation.
4. Power Financial Corporation, directly and indirectly, owns 66.492% (excluding 0.021% held by The Canada Life Assurance Company in its segregated funds or for similar purposes).
5. Non-voting common and non-participating voting shares have also been issued.
6. Mackenzie Financial Corporation owns 80% of the outstanding shares. Great-West Lifeco Inc. owns 20% of the outstanding shares. GP of Armstrong LP.
7. 11249185 Canada Inc. has 49.9% non-controlling voting interest in Northleaf Capital Group Ltd.

10. FUND GOVERNANCE

As the manager of the Funds, we are under a statutory duty imposed by the *Securities Act* (Ontario) to act honestly, in good faith and in the best interests of all our managed Mackenzie Funds, and to exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in the same circumstances.

Our Board of Directors (the “**Board**”) is responsible for overseeing our compliance with that statutory duty owed to the Mackenzie Funds.

The Board operates in accordance with the provisions of a Unanimous Shareholders Agreement (the “**USA**”) entered into by our shareholders. Pursuant to the USA, the Board generally supervises our functions as the manager of the Funds. Mackenzie Inc., the sole voting shareholder, has oversight responsibilities for all other matters related to us, including corporate governance, operating results, financial and strategic planning, product strategy, compensation and personnel decisions and overall corporate level risk management.

In addition, we have appointed an IRC, which reviews potential conflicts of interest matters referred to it by our management.

Board of Directors of Mackenzie Investments

Our Board is currently comprised of six directors, one of whom is independent of us and our subsidiaries and affiliates and five of whom are members of management. The Board’s mandate is for the most part limited to fund governance matters through the operation of the USA and oversees us in fulfilling our obligations in our role as the manager and trustee of the Mackenzie Funds.

The Board performs its role through the following activities:

- approving the offering documents of new funds;
- supervises our activities in respect of our obligations in managing the Mackenzie Funds, which are based on laws and regulations, the constating documents of the Mackenzie Funds and the continuous disclosure documents of the Mackenzie funds (such as simplified prospectuses, annual information forms, Fund Facts documents, management reports of fund performance, etc.);
- meets at least quarterly and reviews policies adopted by us and reports relating to our compliance with those policies, including policies relating to conflicts of interest as required by NI 81-107. The principal policies include valuation of portfolio securities for the Mackenzie Funds, the use of derivative instruments by the Mackenzie Funds, proxy-voting policies for the Mackenzie Funds, the allocation of trades on behalf of the Mackenzie Funds and the restrictions imposed on personal trading by officers and others with access to the Mackenzie Funds’ trading activities (which are contained in the Personal

Trading Policy). The restrictions on personal trading comply with the standards for the mutual fund industry set by the Investment Funds Institute of Canada. Compliance monitoring with respect to these and other policies is carried out on an ongoing basis by the staff of our Legal and Compliance Departments, who report to the Board on a regular basis;

- receives reports regarding the compliance of the Mackenzie Funds with their investment objectives and strategies, and securities legislation generally;
- reviews performance of the Mackenzie Funds. In this capacity, it receives regular reports from management with respect to the performance of the Mackenzie Funds and reviews with management the performance of specific portfolio managers and sub-advisors. However, the ultimate decisions regarding appointing or replacing specific portfolio managers or sub-advisors are the responsibility of management;
- receives regular reports on, and reviews with management the operations of, the Mackenzie Funds. This includes oversight of fund valuation processes, the transfer agency function, and the information systems used to support these operations. The Board also reviews material services provided by third party suppliers;
- reviews all financial reporting by the Mackenzie Funds, including the interim and annual financial statements and management reports of fund performance;
- meets with the Mackenzie Funds' auditors regularly to discuss the financial reporting of the Mackenzie Funds and specific accounting issues that may arise and the effect of specific events on the Mackenzie Funds' financial position. The Board also reviews with management and with the Mackenzie Funds' auditor the adoption of specific accounting policies;
- receives reports from management with respect to our compliance with laws and regulations that affect us as a manager of mutual funds and that could have a material impact on fund financial reporting, including tax and financial reporting laws and obligations. The Board also reviews the income tax status of the Mackenzie Funds and Mackenzie Investments;
- reviews policies relating to financial risks established by management of Mackenzie Investments, as well as compliance with those policies, and reviews and assesses the insurance coverage maintained by us as it relates to our role of managing the Mackenzie Funds;
- reviews internal financial controls with management on a regular basis. The Board meets with our Internal Audit Department, outside the presence of management, to review and gain assurance that reasonable financial controls are in place and are effective;

- reviews the annual plan of our Internal Audit Department with respect to the Mackenzie Funds and their reports;
- oversees all aspects of the relationship between us and the auditor of the Mackenzie Funds. The Board reviews and approves the terms of auditor engagements, the audit and non-audit services provided by the auditor, sets its remuneration and reviews its performance annually or more frequently. The Board regularly meets with the auditor outside the presence of management of Mackenzie Investments; and
- reviews its mandate on a regular basis.

The independent members of the Board are compensated for participating on the Board through the payment of an annual retainer. Board members who are part of management receive no additional compensation for their participation on the Board. The Board may, from time to time, engage legal consultants to assist it in fulfilling its duties. We generally pay for these expenses.

Our Board is not responsible for overseeing the activities of our wholly owned subsidiaries. Our subsidiaries are overseen by their own Boards of Directors under applicable corporate statutes within their local jurisdiction.

Mackenzie Funds' Independent Review Committee

Under NI 81-107, mutual funds are required to form an IRC to review, among other things, conflict-of-interest matters to provide impartial judgment on these matters to us, in our role as manager of the Mackenzie Funds. We have created the IRC, which consists of three members: Scott Edmonds (Chair), Saijal Patel and Rebecca Cowdery.

The IRC reviews potential conflicts of interest referred to it by us, as manager of the Mackenzie Funds, and makes recommendations on whether a course of action achieves a fair and reasonable result for the applicable Mackenzie Funds, and only upon making that determination does it recommend to us that the transaction proceed. This includes potential transactions, as well as regular review of our policies and procedures relating to conflicts of interest.

NI 81-107 specifically permits us to submit proposals to the IRC to cause a Mackenzie Fund to directly purchase or sell securities to another Mackenzie Fund without using a broker, although, to date, we have not taken advantage of this provision. Also, as stated under “**Investment Restrictions and Practices**”, the IRC has approved standing instructions to permit the Mackenzie Funds to invest in securities of companies related to us.

NI 81-107 also permits the IRC, upon referral by us, to consider proposals to change the auditor of a Mackenzie Fund or to approve mergers between Mackenzie Funds. In most cases, if the IRC approves these changes, a vote of investors would not be required; rather, you would be given 60 days' prior notice of the changes.

Supervision of Securities Lending, Repurchase and Reverse Repurchase Transactions

Many of the Funds are permitted to enter into securities lending, repurchase and reverse repurchase transactions consistent with its investment objectives and in compliance with the applicable provisions of NI 81-102. We have appointed the Funds' custodian as the Funds' agent and have entered into a Securities Lending Agreement with that agent to administer any securities lending and repurchase transactions for that Fund. Those Funds also may enter into reverse repurchase transactions directly or through an agent.

The Securities Lending Agreement complies with, and the agent is bound to comply with, the applicable provisions of NI 81-102.

The Funds are subject to the following general risks associated with securities lending, repurchase and reverse repurchase transactions:

- when entering into securities lending, repurchase and reverse repurchase transactions, the Funds are subject to the credit risk that the counterparty may go bankrupt or default under the agreement and the Funds would be forced to make a claim in order to recover its investment;
- when recovering its investment on a default, the Funds could incur a loss if the value of the portfolio securities loaned (in a securities lending transaction) or sold (in a repurchase transaction) has increased relative to the value of the collateral held by the Funds; and
- similarly, the Funds could incur a loss if the value of the portfolio securities it has purchased (in a reverse repurchase transaction) decreases below the amount of cash paid by such Fund to the counterparty, plus interest.

We will manage the risks associated with securities lending, repurchase and reverse repurchase transactions by requiring the agent to

- maintain internal controls, procedures and records, including a list of approved counterparties based on generally accepted creditworthiness standards, transaction and credit limits for each counterparty and collateral diversification standards;
- establish daily the market value of both the securities loaned by a Fund under a securities lending transaction, or sold by a Fund under a repurchase transaction, and the cash or collateral held by a Fund. If on any day the market value of the cash or collateral is less than 102% of the market value of the borrowed or sold securities, the agent will request that the counterparty provide additional cash or collateral to the Fund to make up the shortfall; and

- ensure that a Fund does not loan or sell more than 50% of the total assets of that Fund through securities lending or repurchase transactions (without including the collateral for loaned securities and cash for sold securities).

Securities lending and reverse repurchase transactions are entered into by the agent on behalf of the Funds, and we monitor the risks of these transactions. To facilitate monitoring, the agent provides us with regular and comprehensive reports summarizing the transactions involving securities lending, repurchase and reverse repurchases.

The Manager has appointed a Securities Lending Management Committee that is responsible for the risk management and oversight procedures applicable where the Funds engage in these transactions.

Our Legal, Compliance and Fund Services Departments are responsible for reviewing the Securities Lending Agreement. Our Board will receive reports, if any, regarding compliance exceptions in connection with the Funds' use of securities lending, repurchase and reverse repurchase transactions.

At present, we do not simulate stress conditions to measure risk in connection with securities lending, repurchase or reverse repurchase transactions. Risk measurement procedures or simulations are conducted by the agent in respect of loans outstanding and the collateral lodged by each borrower and across all borrowers in the agents' overall securities lending and repurchase portfolios. These procedures and simulations include the Funds' securities but are not specific to the Funds.

Supervision of Derivatives Trading

We have adopted various policies and internal procedures to supervise the use of derivatives within our Fund portfolios. All policies and procedures comply with the derivative rules set out in NI 81-102 or as modified by any exemptions to NI 81-102 granted by the Canadian Securities Administrators. These policies are reviewed at least annually by senior management.

We have established an approval process for the use of derivatives before derivatives can be used in the Funds to ensure compliance with NI 81-102 or any granted exemptions to NI 81-102 and to ensure that the derivative is suitable for the Fund within the context of the Fund's investment objectives and investment strategies.

Our Fund Services Department monitors and reports on the derivative transactions that are entered into the Fund's portfolio records. We have established threshold education and experience requirements for all staff who perform activities related to the valuation, monitoring, reporting and overall supervision of derivatives trading, to ensure that those operations are carried out prudently and efficiently.

The Fund Administrator enters all derivative trade information and these trade entries and valuations are reviewed at the time of initial entry by a qualified staff member who has met threshold education and experience requirements. Valuations of derivative

instruments are carried out according to the procedures described under “**Valuation of Portfolio Securities**”.

The Compliance Department conducts ongoing monitoring of derivatives strategies for compliance with regulation designed to ensure (i) all derivatives strategies of the Mackenzie Funds meet regulatory requirements; and (ii) derivative and counterparty exposures are reasonable and diversified. New derivative strategies are subject to a standardized approval process involving members from the Investment Management, Fund Services and Compliance Departments.

Under NI 81-102, mutual funds may engage in derivative transactions for both hedging and non-hedging purposes. Where we engage an external advisory firm to provide portfolio management services to the Funds and that firm trades in derivative instruments (or other instruments) for the Funds, under NI 81-102 we will be responsible for ensuring that all trading for the Funds by the sub-advisors is suitable to the Funds’ objectives and strategies. When derivatives are used for hedging purposes, our internal policies require that the derivatives have a high degree of negative correlation to the position being hedged, as required by NI 81-102. Derivatives will not be used to create leverage within the Funds’ portfolio unless permitted under NI 81-102. We do not simulate stress conditions to measure risk in connection with the Fund’s use of derivatives.

The designated Senior Vice-President, Investments oversees the compliance with the derivatives policies by the portfolio managers. The Compliance Department reports any identified exceptions to the derivatives policies and procedures described above.

Proxy Voting Policies and Procedures

The Funds managed by our internal portfolio managers follow the proxy voting policies and procedures mandated by us.

Our objective is to vote the securities of companies for which we have proxy-voting authority in a manner most consistent with the long-term economic interest of Fund investors.

Voting Practices

We take reasonable steps to vote all proxies received. However, we cannot guarantee that we will vote in all circumstances. We may refrain from voting where administrative or other procedures result in the costs of voting outweighing the benefits. We may also refrain from voting if, in our opinion, abstaining or otherwise withholding our vote is in your best interests.

Fund-of-Fund Voting

We may vote the securities of an Underlying Fund owned by a Fund when the Underlying Fund is not managed by us. If an Underlying Fund is managed by us or one

of our associates or affiliates, we will not vote the securities of the Underlying Fund but will decide if it is in your best interests for you to vote on the matter individually. Generally, for routine matters, we will decide that it is not in your best interests to vote individually. However, if we decide that it is in your best interests for you to vote, then we will ask you for instructions on how to vote your proportionate share of the Underlying Fund securities owned by the Fund and will vote accordingly. We will only vote the proportion of the Underlying Fund securities for which we have received instructions.

Summary of Proxy Voting Guidelines

Mackenzie's Proxy Voting Guidelines establish guidelines relating to the voting of securities for a variety of matters, which include but are not limited to board of directors elections, management and director compensation, appointment of auditor, shareholder rights plans, and management of environmental and social proposals. The Manager will generally vote in line with the Proxy Voting Guidelines, although there may be circumstances where it believes it is in the best interests of the particular Mackenzie Fund to vote differently than the manner contemplated by the Proxy Voting Guidelines. The Manager has retained the services of Glass Lewis to provide administrative and proxy voting services to the Mackenzie Funds. For Mackenzie Funds other than Sustainable Investment Solutions, the Manager will generally use the Glass Lewis proxy voting research as applied in the Glass Lewis standard guidelines to inform voting. For Mackenzie Funds that are Sustainable Investment Solutions, the Manager will generally use the research as applied in the Glass Lewis ESG proxy voting guidelines. Where a Manager believes it is the best interests of the Mackenzie Fund to vote differently than the manner contemplated by the relevant Glass Lewis proxy voting guideline, as applicable, the Manager must document the rationale for their decision. Mackenzie's Proxy Voting Guidelines, which include links to the Glass Lewis standard guidelines and Glass Lewis ESG guidelines, are available on the Sustainability Policies and Reporting page of our website at www.mackenzieinvestments.com/en/investments/by-strategy/sustainable-investing/sustainability-policies-and-reporting.

Conflicts of Interest

Circumstances may occur where a Mackenzie Fund has a potential conflict of interest relative to its proxy voting activities. Where an Internal Manager has a conflict or potential conflict, he or she will notify our Chief Investment Officer ("**CIO**"), and either the Senior Vice-President, Legal ("**SVP Legal**"), or the Chief Compliance Officer ("**CCO**"). Should the CIO and either the SVP, Legal or the CCO conclude that a conflict exists, the CCO will document the conflict and inform our Fund Administrator.

We will maintain a Proxy Voting Watch List ("**Watch List**") that includes the names of issuers that may be in conflict and our Fund Administrator will notify us of any meeting circulars and proxies received from an issuer on the Watch List. The CIO and either the VP Legal or CCO will discuss the voting matter(s) with the Internal Manager or sub-advisor and ensure that the proxy voting decision is based on our proxy voting policies and is in the best interests of the Mackenzie Fund.

All voting decisions made as described in the following section are documented and filed by the Fund Administrator.

Proxy Voting Procedures

Mackenzie utilizes the Glass Lewis Viewpoint platform to administer and execute its proxy voting process. Glass Lewis receives proxy materials and then reviews all materials, completes their research process, and generates a set of recommendations for each meeting to Mackenzie. Recommendations are consistent with the Glass Lewis voting guidelines that Mackenzie has instructed them to apply.

An automatic notification including a direct link to the research and recommendation is sent by Glass Lewis to the Mackenzie investment management teams via the Viewpoint system. The Mackenzie Portfolio Manager reviews the research and any additional information and considers all aspects of the vote including their own viewpoint to make an independent voting decision. The Portfolio Manager executes the vote via the Viewpoint platform by either voting with or against the Glass Lewis recommendations.

Following electronic receipt of Mackenzie's voting decision via Viewpoint, Glass Lewis communicates the voting decisions electronically to the ballot distributor as well as to the custodian banking network globally on Mackenzie's behalf. All records related to proxies, votes, and related research materials are maintained by Mackenzie within the Glass Lewis Viewpoint platform.

Proxy Voting by Sub-Advisors

Sub-advisors have the authority to make all voting decisions concerning the securities held in the Funds on a fully discretionary basis in accordance with the applicable investment sub-advisory agreement. We have reviewed the proxy-voting policies of all sub-advisors as part of our diligence process and have determined that the sub-advisors have proxy voting policies in place that are satisfactory.

Information Requests

The policies and procedures that the Funds follow when voting proxies relating to portfolio securities are available upon request at any time, at no cost, by calling toll free at 1-800-387-0614 or by writing to Mackenzie Financial Corporation, 180 Queen Street West, Toronto, Ontario M5V 3K1.

Each Fund's proxy-voting record for the most recent 12-month period ending June 30 will be available free of charge to any investor of that Fund upon request at any time after August 31 of the same year by calling 1-800-387-0614 and will also be available on our website at www.mackenzieinvestments.com.

Short-Term Trading Policies and Procedures

We have adopted policies and procedures to detect and deter inappropriate and excessive short-term trading.

We define an inappropriate short-term trade as a combination of a purchase and redemption, including switches between Mackenzie Funds, made within 30 days, which we believe is detrimental to Mackenzie Fund investors and that may take advantage of Funds with investments priced in other time zones or illiquid investments that trade infrequently.

We define excessive short-term trading as a combination of purchases and redemptions, including switches between Mackenzie Funds, that occurs with such frequency within a 30-day period that we believe it is detrimental to Fund investors.

Inappropriate short-term trading may harm Fund investors who do not engage in these activities by diluting the NAV of their Fund securities as a result of the market timing activities of other investors. Inappropriate and excessive short-term trading may cause a Fund to carry an abnormally high cash balance and/or high portfolio turnover rate, both of which may reduce a Fund's returns.

All trades that we determine to be inappropriate short-term trades will be subject to a 2% fee. All trades that we determine to be part of a pattern of excessive short-term trading will be subject to a 1% fee. The fees charged will be paid to the applicable Funds.

We may take such additional action as we consider appropriate to prevent further similar activity by you. These actions may include the delivery of a warning to you, placing you or your account(s) on a watch list to monitor your trading activity and the subsequent rejection of further purchases by you if you continue to attempt such trading activity, and/or closure of your account.

In determining whether a short-term trade is inappropriate or excessive, we will consider relevant factors including the following:

- *bona fide* changes in investor circumstances or intentions;
- unanticipated financial emergencies;
- the nature of the Mackenzie Fund;
- past trading patterns;
- unusual market circumstances; and
- an assessment of harm to the Mackenzie Fund or to us.

The following types of redemptions (including switches) will be exempt from short-term trading fees:

- from money market of similar Mackenzie Funds. These Mackenzie Funds are exempt from short-term trading fees because they are unlikely to be exposed to the adverse effects of short-term trading.
- from an Underlying Fund by a Fund in a fund-of-funds program or other similar program;
- for our asset allocation programs, excluding manual rebalancing in our Automatic Rebalancing Service;
- for systematic withdrawal plans;
- redemptions of units received on the reinvestment of income or other distributions; and
- automatic rebalancing of your holdings within our Automatic Rebalancing Service, which will not, in any circumstances other than a manual rebalancing, result in short-term trading fees being charged.

We, the Mackenzie Funds and any other parties to the arrangements above do not receive any compensation or other consideration for the above arrangements. Other than as listed above, Mackenzie Investments has not entered into any arrangements with any other entity (including other funds) that would permit short-term trading by that entity.

In making these judgments, we seek to act in a manner that we believe is consistent with your best interests. Your interests and the Mackenzie Fund's ability to manage their investments may be adversely affected by inappropriate or excessive short-term trading because, among other things, these types of trading activities can dilute the value of the Mackenzie Fund securities, can interfere with the efficient management of a Mackenzie Fund portfolio and can result in increased brokerage and administrative costs.

While we will actively take steps to monitor, detect and deter inappropriate and excessive short-term trading, we cannot ensure that such trading activity will be completely eliminated. For example, certain financial institutions may offer alternative investment products to the public that are comprised, in whole or in part, of securities of the Mackenzie Funds. These institutions may open accounts with us on behalf of multiple investors whose identity and trading activity is not normally recorded on our transfer agent system.

We reserve the right to restrict, reject or cancel, without any prior notice, any purchase or switch order, including transactions that we deem to represent inappropriate or excessive short-term trading.

Short Selling Policies and Procedures

Most Funds may engage in short selling where such short selling will be done in accordance with securities regulations. The CIO is responsible for overseeing the Fund's short selling activities. Short selling activities are monitored by our compliance department in accordance with applicable securities regulations. Risk measurement procedures or simulations generally are not used to test the portfolio of the Fund under stress conditions.

11. FEES, EXPENSES AND MANAGEMENT EXPENSE REDUCTIONS

Fees and Expenses

There are fees and expenses that you may have to pay if you invest in a Fund. You may have to pay some of these fees and expenses directly. Alternatively, a Fund may have to pay some of these fees and expenses directly, which will therefore reduce the value of your investment in the Fund.

Included in the fees and expenses associated with investing in the Funds are management fees, administration fees, and fund costs. The management fees and any administration fees are paid by the Funds to us as manager of the Funds.

No management fees are charged to the Funds by us in respect of Series R, Series CL and Series IG units.

As manager, registrar and transfer agent of the Funds, we directly provide many of the services required for the Funds to operate, although we retain third parties to provide certain services, and we are required to bear certain expenses to third parties solely for the benefit of the Fund.

The expenses borne by us in exchange for the administration fee include recordkeeping, accounting and fund valuation costs, custody safekeeping fees, audit, legal fees, the costs of preparing and distributing fund financial reports, simplified prospectuses (when applicable), and other investor communications we are required to prepare to comply with applicable laws, and other expenses not otherwise included in the management fee.

Each series of each Fund pays "fund costs", which include interest and borrowing costs, brokerage commissions and related transaction fees, taxes (including, but not limited to G.S.T./H.S.T. and income tax), its pro rata share of all fees and expenses of the Mackenzie Funds' Independent Review Committee, fees paid to external service providers associated with tax reclaims, refunds or the preparation of foreign tax reports on behalf of the Funds, new fees related to external services not commonly charged in the Canadian mutual fund industry and introduced after June 27, 2025 and the costs of complying with any new regulatory requirements, including, without limitation, any new fees introduced after June 27, 2025. Interest and borrowing costs and taxes will be charged to each series directly based on usage. Costs of complying with new regulatory requirements will be assessed based on the extent and nature of these requirements.

The remaining fund costs will be allocated to each series of each Fund based on their net assets relative to the net assets of all series of Mackenzie Funds. We may allocate fund costs among each series of a Fund based on such other method of allocation as we consider equitable to the Fund.

Cost of Carbon Offset

The amount of carbon credits to be acquired (and retired) by the IG Climate Action Portfolio – Betterworld Canada I, IG Climate Action Portfolio – Betterworld Canada II, IG Climate Action Portfolio – Betterworld Canada III, IG Climate Action Portfolio – Betterworld Canada IV (the “**Underlying IG Climate Action Portfolios**”), are subject to the maximum cost of carbon credits per annum of the IG Climate Action Portfolio – Global Equity, IG Climate Action Portfolio – Global Equity Balanced, IG Climate Action Portfolio – Global Neutral Balanced, and IG Climate Action Portfolio – Global Fixed Income Balanced (the “**Top Portfolios**”) (offered under a separate simplified prospectus) as set forth below (“**Maximum Annual Cost**”).

As at the date of this Annual Information Form, the Maximum Annual Cost of carbon credits is consistent with our estimated cost of carbon credits that would be required to neutralize substantially all of the carbon footprint of each Top Portfolio. **However, the actual cost to acquire (and retire) carbon credits to neutralize substantially all of the carbon footprint of each Top Portfolio may ultimately be higher than the estimated cost (and Maximum Annual Cost), which would result in only a partial offset of a Top Portfolio’s carbon footprint.**

Underlying IG Climate Action Portfolios	Maximum Annual Cost of Carbon Credits
IG Climate Action Portfolios – Betterworld Canada I	0.06% of the net asset value of IG Climate Action Portfolio – Global Equity
IG Climate Action Portfolios – Betterworld Canada II	0.06% of the net asset value of IG Climate Action Portfolio – Global Equity Balanced
IG Climate Action Portfolios – Betterworld Canada III	0.06% of the net asset value of IG Climate Action Portfolio – Global Neutral Balanced
IG Climate Action Portfolios – Betterworld Canada IV	0.07% of the net asset value of IG Climate Action Portfolio – Global Fixed Income Balanced

A proposal to change the basis of calculating the management fees or other fees and expenses which could result in an increase in the charges payable by a Fund would require that the change first be approved by a majority of the votes cast at a meeting of investors of the Fund unless (i) the party receiving the fees and expenses operates at arm’s length to the Fund and us and any associate or affiliate of us; and (ii) investors are given at least 60 days’ notice before the effective date of the proposed change. Similarly, the introduction of certain new fees by us for the Fund which may be payable by investors of the Fund would also require the approval of a majority of the votes cast at a meeting of investors of the Fund.

12. INCOME TAX CONSIDERATIONS

This is a summary of principal Canadian federal income tax considerations under the *Income Tax Act* (Canada) (the “**Tax Act**”) and the regulations under the Tax Act (the “**Regulations**”) applicable to the Funds and to you as an investor in the Funds. This summary assumes that you are an individual (other than a trust) resident in Canada, that you hold your units directly, as capital property, or within a registered plan, and you are not affiliated with and deal at arm’s length with the Fund. **This summary is not intended to be legal advice or tax advice. We have tried to make this discussion easy to understand. As a result, it may not be technically precise or cover all the tax consequences that may be relevant to you. Accordingly, you should consult your own tax advisor, having regard to your own particular circumstances when you consider purchasing, switching or redeeming units of a Fund.**

This summary is based on the current provisions of the Tax Act, the Regulations, and our understanding of the current published administrative policies and assessing practices of the Canada Revenue Agency (the “**CRA**”) published in writing prior to the date hereof. This summary takes into account all specific proposals to amend the Tax Act and the Regulations that have been publicly announced in writing by the Minister of Finance (Canada) prior to the date of this annual information form (the “**Tax Proposals**”) and assumes that all Tax Proposals will be enacted in the form proposed. However, there can be no assurance that Tax Proposals will be enacted in the form publicly announced, or at all. This summary does not take into account or anticipate any other changes in law, whether by legislative, administrative or judicial action and it does not take into account provincial, territorial or foreign income tax legislation or considerations, which may differ from the considerations described below.

This summary is also based on the assumptions that (i) none of the issuers of securities held by a Fund will be a foreign affiliate of the Fund or any unitholder, (ii) none of the securities held by a Fund will be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; (iii) none of the securities held by a Fund will be an interest in a trust (or a partnership which holds such an interest) which would require the Fund (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.1 or 94.2 of the Tax Act, or an interest in a non-resident trust other than an “exempt foreign trust” as defined in the Tax Act; and (iv) no Fund will enter into any arrangement where the result is a dividend rental arrangement for the purposes of the Tax Act.

Income Tax Considerations for the Funds

The following paragraphs describe some of the ways in which mutual funds can earn income:

- Mutual funds can earn income in the form of interest, dividends or income from the investments they make, including in other mutual funds, and can be deemed to earn income from investments in certain foreign entities. All income must be computed in Canadian dollars, even if earned in a foreign currency.

- Mutual funds can realize a capital gain by selling an investment for more than its adjusted cost base (“**ACB**”). They can also realize a capital loss by selling an investment for less than its ACB. A mutual fund that invests in foreign-denominated securities must calculate its ACB and proceeds of disposition in Canadian dollars based on the conversion rate on the date the securities were purchased and sold, as applicable. As a result, a mutual fund may realize capital gains and losses due to changes in the value of the foreign currency relative to the Canadian dollar.
- Mutual funds can realize gains and losses from using derivatives or engaging in short selling. Generally, gains and losses from derivatives are added to or subtracted from the mutual fund’s income. However, if derivatives are used by a mutual fund as a hedge to limit its gain or loss on a specific capital asset or group of capital assets and there is sufficient linkage, then the gains and losses from these derivatives are generally capital gains or capital losses. Generally, gains and losses from short selling are treated as income, unless the securities are “Canadian securities” as defined in the Tax Act and the Fund has made a subsection 39(4) election under the Tax Act. The derivative forward agreement rules in the Tax Act (the “**DFA Rules**”) target certain financial arrangements (described in the DFA Rules as “derivative forward agreements”) that seek to reduce tax by converting, through the use of derivative contracts, the return on investments that would have the character of ordinary income to capital gains. The DFA Rules will generally not apply to derivatives used to closely hedge gains or losses due to currency fluctuations on underlying capital investments of a Fund. Hedging, other than currency hedging on underlying capital investments, which reduces tax by converting the return on investments that would have the character of ordinary income to capital gains through the use of derivative contracts, will be treated by the DFA Rules as on income account.
- Premiums received for covered call options and cash covered put options written by a Fund that are not exercised prior to the end of the year will constitute capital gains of the Fund in the year received unless such premiums are received by the Fund as income from a business of buying and selling securities or the Fund has engaged in a transaction or transactions considered to be an adventure in the nature of trade. Each such Fund purchases securities for its portfolio with the objective of earning dividends thereon over the life of the Fund, writes covered call options with the objective of increasing the yield on the portfolio beyond dividends received, and writes cash covered put options to increase returns and to reduce the net cost of purchasing securities upon the exercise of put options. Thus, having regard to the foregoing and in accordance with the CRA’s published administrative policies, transactions undertaken by the Funds in respect of shares and options on such shares are treated and reported by the Funds as arising on capital account.
- Premiums received by a Fund on covered call (or cash-covered put) options that are subsequently exercised will be added in computing the proceeds of

disposition (or deducted in computing the ACB) to the Fund of the securities disposed of (or acquired) by the Fund upon the exercise of such call (or put) options. In addition, where the premium was in respect of an option granted in a previous year so that it constituted a capital gain of the Fund in the previous year, such capital gain may be reversed.

- Gains and losses from trading in precious metals and bullion will be treated on income account, rather than as capital gains and losses.

In certain circumstances, a Fund may be subject to loss restriction rules that deny or defer the deduction of certain losses. For example, a capital loss realized by a Fund will be suspended if, during the period that begins 30 days before and ends 30 days after the date on which the capital loss was realized, the Fund or an affiliated person (as defined in the Tax Act) acquires property that is, or is identical to, the property on which the loss was realized and continues to own that property at the end of the period.

If a Fund invests in another fund that is a Canadian resident trust (an “**Underlying Canadian Fund**”), other than a specified investment flow-through trust, the Underlying Canadian Fund may designate to the Fund a portion of the distributed amounts as may reasonably be considered to consist of (i) taxable dividends (including eligible dividends) received by the Underlying Canadian Fund on shares of taxable Canadian corporations; and (ii) net taxable capital gains realized by the Underlying Canadian Fund. Any such designated amounts will be deemed for tax purposes to be received or realized by the Fund as such a taxable dividend or taxable capital gain, respectively. An Underlying Canadian Fund that pays foreign withholding tax may make designations such that a Fund may be treated as having paid its share of such foreign tax for purposes of the foreign tax credit rules in the Tax Act.

The CRA has expressed the opinion that gains (or losses) of mutual fund trusts resulting from transactions in commodities should generally be treated for tax purposes as ordinary income rather than as capital gains, although the treatment in each particular case remains a question of fact to be determined having regard to all the circumstances.

Under the Tax Act, the excessive interest and financing expenses limitation rules (the “**EIFEL Rules**”) have the effect of denying the deductibility of net interest and financing expenses in certain circumstances, including the computation of taxable income by a trust. The EIFEL Rules and their application are highly complex, and there can be no assurances that the EIFEL Rules will not have adverse consequences to the Fund or its Unitholders. In particular, if these rules were to apply to restrict deductions otherwise available to the Fund, the taxable component of distributions paid by the Fund to Unitholders may be increased, which could reduce the after-tax return associated with an investment in Units.

Funds that qualify as “mutual fund trusts”

Each Fund computes its income or loss separately. All of a Fund’s deductible expenses, including management fees, will be deducted in calculating the Fund’s income for each taxation year. A Fund will be subject to tax on its net income, including net

taxable capital gains, not paid or payable to its investors for the taxation year after taking into consideration any loss carry-forwards and any capital gains refund. Each Fund intends to pay to investors enough of its income and capital gains for each taxation year so that it will not be liable for ordinary income tax under Part I of the Tax Act.

The losses of a Fund may be restricted when a person or partnership becomes a “majority-interest beneficiary” of the Fund (generally by holding units representing more than 50% of NAV of the Fund) unless the Fund qualifies as an “investment fund” by satisfying certain investment diversification and other conditions.

Each Fund will be entitled for each taxation year throughout which it is a mutual fund trust to reduce (or receive a refund in respect of) its liability, if any, for tax on its net realized capital gains by an amount determined under the Tax Act based on the redemptions of its units during the year (“**capital gains refund**”). The Manager may in its discretion utilize the capital gains refund mechanism for a Fund in any particular year. The capital gains refund in a particular taxation year may not completely offset the tax liability of the Fund for such taxation year which may arise upon the sale of its investments in connection with redemption of units.

A Fund is required to compute its income and gains for tax purposes in Canadian dollars. A Fund’s foreign investments may therefore result in foreign exchange gains or losses that will be taken into account in computing the Fund’s income for tax purposes. Generally, foreign source income is subject to withholding taxes.

In computing its income for tax purposes, each of the IG Climate Action Portfolios may deduct reasonable administrative and other expenses incurred to earn income in accordance with the detailed rules in the Tax Act. Each Fund intends to take the position that the cost of purchasing and retiring carbon credits is not an expense that can be deducted in computing its income, nor will such cost be reflected in the cost of its portfolio securities or otherwise reduce the Fund’s capital gain on the disposition of any of its portfolio securities.

Each of Mackenzie Cundill Value Fund II, Mackenzie Emerging Markets Fund II, Mackenzie Global Resource Fund II, and Mackenzie Ivy International Fund II qualify as a “mutual fund trust” under the Tax Act and each is expected to continue to so qualify at all material times.

Funds that do not qualify as “mutual fund trusts”

A Fund that does not qualify as a “mutual fund trust” for purposes of the Tax Act throughout its taxation year is not eligible for a capital gains refund and could be subject to alternative minimum tax for the year, Part X.2 tax, as well as other taxes under the Tax Act. In addition, if one or more “financial institutions”, as defined in the Tax Act, owns more than 50% of the fair market value of the units of such a Fund, that Fund will be a “financial institution” for income tax purposes and thus is subject to certain “mark-to-market” tax rules. In this case, most of the Fund’s investments would be considered mark-to-market property, with the result that:

- it will be deemed to have disposed of and re-acquired its mark-to-market property at the end of each taxation year, as well as at such time as it becomes, or ceases to be, a financial institution; and
- the gains and losses from these deemed dispositions will be on income account, not capital account.

In any year throughout which a Fund does not qualify as a mutual fund trust under the Tax Act, the Funds could be subject to tax under Part XII.2 of the Tax Act. Part XII.2 of the Tax Act provides that certain trusts (excluding mutual fund trusts) that have an investor who is a “designated beneficiary” under the Tax Act at any time in the taxation year are subject to a special tax under Part XII.2 of the Tax Act on the trust’s “designated income” under the Tax Act. “Designated beneficiaries” generally include non-resident persons, non-resident owned investment corporations, certain trusts, certain partnerships, and certain tax-exempt persons in certain circumstances where the tax-exempt person acquires units from another beneficiary. “Designated income” generally includes income from businesses carried on in Canada and taxable capital gains from dispositions of taxable Canadian property. Where the Fund is subject to tax under Part XII.2, provisions in the Tax Act are intended to ensure that Unitholders who are not designated beneficiaries receive an appropriate refundable tax credit.

Each of the Funds (excluding Mackenzie Cundill Value Fund II, Mackenzie Emerging Markets Fund II, Mackenzie Global Resource Fund II, and Mackenzie Ivy International Fund II) do not currently qualify as a mutual fund trust for tax purposes and is not expected to qualify as a mutual fund trust under the Tax Act.

Taxation of a Fund if Investing in Foreign-Domiciled Underlying Trusts

Section 94.1

A Fund may be subject to section 94.1 of the Tax Act if it holds or has an interest in “offshore investment fund property” within the meaning of the Tax Act. In order for section 94.1 of the Tax Act to apply to that Fund the value of the interests must reasonably be considered to be derived, directly or indirectly, primarily from portfolio investments of the offshore investment fund property. If applicable, these rules can result in the Fund including an amount in its income based on the cost of its offshore investment fund property multiplied by a prescribed interest rate. These rules would apply in a taxation year to a Fund if it could reasonably be concluded, having regard to all the circumstances, that one of the main reasons for that Fund acquiring, holding or having the investment in, the entity that is an offshore investment fund property is to benefit from the portfolio investments of the entity in such a manner that the taxes on the income, profits and gains therefrom for any particular year are significantly less than the tax that would have been applicable if such income, profits and gains had been earned directly by a Fund. The Manager has advised that none of the reasons for a Fund acquiring an interest in an offshore investment fund property may reasonably be considered to be as stated above.

Section 94.2

A Fund may invest in foreign-domiciled underlying investment funds that qualify as “exempt foreign trusts” (the “**Underlying Foreign Funds**”) for purposes of the non-resident trust rules in sections 94 and 94.2 of the Tax Act.

If the total fair market value at any time of all fixed interests of a particular class in an Underlying Foreign Fund held by the Fund, persons or partnerships not dealing at arm’s length with the Fund, or persons or partnerships that acquired their interests in the Underlying Foreign Fund in exchange for consideration given to the Underlying Foreign Fund by the Fund, is at least 10% of the total fair market value at the time of all fixed interests of the particular class of the Underlying Foreign Fund, the Underlying Foreign Fund will be a “foreign affiliate” of the Fund and will be deemed by section 94.2 of the Tax Act to be at the time a “controlled foreign affiliate” of the Fund.

If the Underlying Foreign Fund is deemed to be a controlled foreign affiliate of the Fund at the end of the particular taxation year of the Underlying Foreign Fund and earns income that is characterized as “foreign accrual property income” as defined in the Tax Act (“**FAPI**”) in that taxation year of the Underlying Foreign Fund, the Fund’s proportionate share of the FAPI (subject to deduction for grossed up “foreign accrual tax” as discussed below) must be included in computing its income for Canadian federal income tax purposes for the taxation year of the Fund in which that taxation year of the Underlying Foreign Fund ends, whether or not the Fund actually receives a distribution of that FAPI. It is expected that the full amount of the income, as determined for Canadian federal income tax purposes, allocated or distributed to an Underlying Foreign Fund by the issuers that it holds securities of will be FAPI. FAPI will also include any net realized taxable capital gains, as determined for Canadian federal income tax purposes, of the Underlying Foreign Fund from the disposition of those securities.

To the extent an amount of FAPI will be required to be included in computing the income of a Fund for Canadian federal income tax purposes, a grossed-up amount may be deductible in respect of the “foreign accrual tax” as defined in the Tax Act (“**FAT**”), if any, applicable to the FAPI. Any amount of FAPI included in income (net the amount of any FAT deduction) will increase the ACB to the Fund of its units of the Underlying Foreign Fund in respect of which the FAPI was included.

Income Tax Considerations for Investors

How you are taxed on an investment in the Funds depends on whether you hold the investment inside or outside a registered plan.

If you hold units of the Funds outside a registered plan

Distributions

You must include in your income for a taxation year the taxable portion of all distributions (including fee distributions) paid or payable (collectively, “**paid**”) to you from a Fund during the year, computed in Canadian dollars, whether these amounts were

paid to you in cash or reinvested in additional units. The amount of reinvested distributions is added to the ACB of your units to reduce your capital gain or increase your capital loss when you later redeem. This ensures that you do not pay tax on the amount again at a later date.

Distributions paid by a Fund may consist of capital gains, ordinary taxable dividends, foreign-source income, other income and/or return of capital.

Ordinary taxable dividends are included in your income, subject to the gross-up and dividend tax credit rules. Capital gains distributions will be treated as capital gains realized by you, one-half of which will generally be included in calculating your income as a taxable capital gain. A Fund may make designations in respect of its foreign-source income so that you may be able to claim any foreign tax credits allocated to you by that Fund.

You may receive a return of capital from your Fund. You will not be immediately taxed on a return of capital, but it will reduce the ACB of your units of that Fund (unless the distribution is reinvested) such that, when you redeem your units, you will realize a greater capital gain (or smaller capital loss) than if you had not received the return of capital. If the ACB of your units is reduced to less than zero, the ACB of your units will be deemed to be increased to zero and you will be deemed to realize a capital gain equal to the amount of this increase.

The higher the portfolio turnover rate of a Fund in a year, the greater the chance that you will receive a capital gains distribution. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

When units of a Fund are acquired by purchasing or switching into that Fund, a portion of the acquisition price may reflect income and capital gains of the Fund that have not yet been realized or distributed. Accordingly, unitholders who acquire units of a Fund just before a distribution date, including at year-end, may be required to include in their income amounts distributed from the Fund, even though these amounts were earned by the Fund before the unitholder acquired the units and were included in the price of the units.

Switches

You will not realize a capital gain or capital loss when you switch the purchase option under which you hold units of a series of a Fund.

You will not realize a capital gain or capital loss when you switch between series of the same Fund. The cost of the acquired units will be equal to the ACB of the units that you switched.

Other switches involve a redemption of the units being switched and a purchase of the units acquired on the switch.

Redemptions

If you redeem units outside of a registered plan (including switches between Funds) the Fund may distribute capital gains to you as partial payment of the redemption price. The taxable portion of the capital gain so allocated must be included in your income (as taxable capital gains) and may be deductible by the Fund in computing its income, subject to subsection 132(5.3) of the Tax Act. Subsection 132(5.3) of the Tax Act only permits a trust that is a “mutual fund trust” for purposes of the Tax Act a deduction in respect of a capital gain of the “mutual fund trust” designated to a unitholder on a redemption of units where the unitholder’s proceeds of disposition are reduced by the designation, up to the amount of the unitholder’s accrued gain on those units. Unitholders who redeem units are advised to consult with their own tax advisors.

You will realize a capital gain (capital loss) if any of your units in a Fund are redeemed. Generally, your capital gain (capital loss) will be the amount by which the NAV of the redeemed units is greater (less) than the ACB of those units. You may deduct redemption charges and other expenses of redemption when calculating your capital gain (capital loss). Generally, one-half of your capital gain is included in your income for tax purposes as a taxable capital gain and one-half of your capital loss can be deducted against your taxable capital gains, subject to the provisions of the Tax Act.

In certain circumstances, loss restriction rules will limit or eliminate the amount of a capital loss that you may deduct. For example, a capital loss that you realize on a redemption of units will be deemed to be nil if, during the period that begins 30 days before and ends 30 days after the day of that redemption, you acquired identical units (including through the reinvestment of distributions or a fee distribution paid to you) and you continue to own these identical units at the end of that period. In this case, the amount of the denied capital loss will be added to the ACB of your units. This rule will also apply where the identical units are acquired and held by a person affiliated with you (as defined in the Tax Act).

Calculating Your ACB

Your ACB must be calculated separately for each series of units that you own in each Fund and must be calculated in Canadian dollars. The total ACB of your units of a particular series of a Fund is generally equal to

- the total of all amounts you paid to purchase those units, including any sales charges paid by you at the time of purchase;

plus

- the ACB of any units of another series and/or Fund that were switched on a tax-deferred basis into units of the particular series;

plus

- the amount of any reinvested distributions on that series;

less

- the return of capital component of distributions on that series;
less
- the ACB of any units of the series that were switched on a tax-deferred basis into units of another series and/or Fund;
less
- the ACB of any of your units of that series that have been redeemed.

The ACB of a single security is the average of the total ACB. Where you switch between series and/or purchase options of the same Fund, the cost of the new units acquired on the switch will generally be equal to the ACB of the previously owned units switched for those new securities.

For example, suppose you own 500 units of a particular series of a Fund with an ACB of \$10 each (a total of \$5,000). Suppose you then purchase another 100 units of the same series of the Fund for an additional \$1,200, including a sales charge. Your total ACB is \$6,200 for 600 units so that your new ACB of each unit of the series of the Fund is \$6,200 divided by 600 units or \$10.33 per unit.

Tax statements and reporting

If applicable, we will send tax statements to you each year identifying the taxable portion of your distributions, the return of capital component of distributions and redemption proceeds paid to you for each year. Tax statements will not be sent to you if you did not receive distributions or redemption proceeds, or if units are held in your registered plan. You should keep detailed records of your purchase cost, sales charges, distributions, redemption proceeds and redemption charges in order to calculate the ACB of your units. You may wish to consult a tax advisor to help you with these calculations.

Generally, you will be required to provide your financial advisor with information related to your citizenship or residence for tax purposes, and, if applicable, your foreign tax identification number. If you, or your controlling person(s) are (i) identified as a U.S. Person (including a U.S. resident or citizen), (ii) identified as a tax resident of a country other than Canada or the U.S., or (iii) do not provide the required information and indicia of U.S. or non-Canadian status are present, details about you and your investment in a Fund will be reported to the CRA unless units are held inside a registered plan. The CRA will provide the information to the relevant foreign tax authorities under exchange of information treaties.

If you hold units of a Fund inside a registered plan

When units of a Fund are held in your registered plan, generally, neither you nor your registered plan will be taxed on distributions received from the Fund or capital gains realized on the disposition of the units of the Fund provided the units are a qualified investment and are not a prohibited investment for the registered plan. However, a withdrawal from a registered plan may be subject to tax.

The units of Mackenzie Cundill Value Fund II, Mackenzie Emerging Markets Fund II, Mackenzie Global Resource Fund II, and Mackenzie Ivy International Fund II are expected to be qualified investments for registered plans at all material times.

Notwithstanding the foregoing, if the holder of a FHSA, TFSA or RDSP, the subscriber of a RESP or the annuitant of a RRSP or RRIF (a “controlling individual”) holds a “significant interest” in a Fund, or if such controlling individual does not deal at arm’s length with a Fund for purposes of the Tax Act, the Units of such Fund will be a “prohibited investment” for such FHSA, TFSA, RRSP, RESP, RDSP, or RRIF. If Units of a Fund are a “prohibited investment” for a FHSA, TFSA, RRSP, RESP, RDSP or RRIF that acquires such Units, the controlling individual will be subject to a penalty tax as set out in the Tax Act. Generally, a controlling individual will not be considered to have a “significant interest” in a Fund unless the controlling individual owns 10% or more of the value of the outstanding Units of such Fund, either alone or together with persons and partnerships with which the controlling individual does not deal at arm’s length. If your registered plan holds a prohibited investment, you become liable to a 50% potentially refundable tax on the value of the prohibited investment and a 100% tax on income and capital gains attributable to, and capital gains realized on, the disposition of the prohibited investment.

You should consult with your own tax advisor regarding the special rules that apply to each type of registered plan, including whether or not a particular unit of a Fund would be a prohibited investment for your registered plan. It is your responsibility to determine the tax consequences to you and your registered plan of establishing the registered plan and causing it to invest in the Funds. Neither we nor the Funds assume any liability to you as a result of making the Funds and/or series available for investment within registered plans.

13. REMUNERATION OF DIRECTORS, OFFICERS AND TRUSTEES

The Funds do not directly employ any directors, officers or trustees to carry out their Fund operations. We, as manager of the Funds, provide all personnel necessary to conduct the Fund’s operations.

Each IRC member is paid an annual retainer of \$50,000 (\$60,000 for the Chair) and a fee of \$3,000 for each quarterly meeting attended. In addition, the IRC members are entitled to \$1,500 for any additional meeting. Members are also entitled to be reimbursed for all reasonable expenses incurred in the performance of their duties, including reasonable travel and accommodation expenses. We also purchase and maintain insurance liability coverage for the benefit of the IRC members. For the year ended March 31, 2025, the total amount expensed in this regard by the Mackenzie Funds was \$252,686.00. All fees and expenses were allocated among the Mackenzie Funds in a manner that was fair and reasonable.

The individual IRC members received total compensation and reimbursement of expenses by the Mackenzie Funds as follows:

IRC Member	Total individual compensation, including expense reimbursement
Scott Edmonds (Chair)	\$89,186.00
Saijal Patel	\$66,500.00
Rebecca Cowdery ¹	\$58,167.00
Robert Hines ²	\$14,333.00
George Hucal ²	\$14,333.00
Atul Tiwari ³	\$10,167.00

¹ Rebecca Cowdery was appointed as an IRC member effective April 30, 2024.

² Robert Hines and George Hucal completed their terms on the IRC effective April 30, 2024.

³ Atul Tiwari ceased to be an IRC member on March 5, 2024.

For a description of the role of the IRC, see “**Mackenzie Funds’ Independent Review Committee**”.

14. MATERIAL CONTRACTS

Set out below are particulars of the material contracts entered into by the Funds as of the date of this annual information form, as well as a description of the portfolio management agreements that we have entered into with certain firms with respect to certain of the Funds. Minor contracts entered into by the Funds in the ordinary course of their business have been excluded.

Declarations of Trust

The Declarations of Trust of the Funds, which govern all of the Funds, and their effective dates are set out in “**Name, Formation and History of the Funds**”. The Declarations of Trust set out the powers and duties of the manager and the trustee of the Funds, the attributes of securities of the Funds, procedures for purchase, exchange and redemption of securities, recordkeeping, calculation of the Funds’ income and other administrative procedures. The Declarations also contain provisions for the selection of a successor trustee if we should resign and for termination of the Funds if no successor trustee can be found. We are not paid a fee in our capacity as trustee (as would be required if an outside trustee was hired) but are entitled to be reimbursed for any costs incurred on the Funds’ behalf.

Master Management Agreements

We have entered into amended and restated master management agreements (the “**Master Management Agreements**”) on the dates set out in the following table for all of the Funds, each as amended, to provide the management and administrative services to the Funds necessary to enable them to carry out their business operations.

Under the Master Management Agreements, we are responsible for providing directly, or for arranging other persons or companies to provide, administration services to the Funds, portfolio management services, distribution services for the promotion and sale of the Funds' securities and other operational services. The Master Management Agreements contain details about fees and expenses payable by the Funds to us, including the management fee rates and Administration Fee rates, as applicable, and the Master Management Agreements are amended each time a new fund or new series of a Fund is added to any of the Master Management Agreements. The Master

Management Agreements have been executed by Mackenzie Investments as manager, and on behalf of the Funds for which we are trustee, in our capacity as trustee.

The Master Management Agreements generally continue from year to year unless terminated with respect to any one or more of the Funds on not less than 6 months' prior written notice. The Master Management Agreements may be terminated on shorter notice if any party to the Master Management Agreement is in breach of the terms of the Master Management Agreement and the breach has continued for at least 30 days without being remedied or if the other party goes bankrupt, ceases to hold appropriate regulatory approvals or commits an act which materially adversely affects its ability to perform the obligations under the Master Management Agreement.

Master Custodian Agreement

We have entered into a Master Custodian Agreement with CIBC, dated February 24, 2005, as amended, on behalf of the Funds to obtain custodial services for the Funds' assets ("**Master Custodian Agreement**").

The Master Custodian Agreement complies with the applicable provisions of NI 81-102 regarding custodial services and requires the custodian to hold the Fund's assets in trust and to separately identify each Fund's account assets. The agreement contains schedules which sets out which Funds are governed by that agreement and the fees payable to the custodian for the range of services provided to the Funds. The agreement can be terminated by the Funds or by the custodian on 120 days' prior written notice.

Portfolio Management Agreements

Except as noted below, we are the portfolio manager for each of the Funds under the terms of our Master Management Agreements with the Funds. We have entered into portfolio management agreements with each of the firms listed under "**Portfolio Management Services**" to provide portfolio management services to several of the Funds.

Under each of the portfolio management agreements, the sub-advisor firms will provide marketing support and assistance in order to market the Funds, all necessary brokerage arrangements and all arrangements with the Fund's custodian to settle portfolio trades. These firms are required to adhere to the investment objectives and investment strategies adopted by the Fund. They have each agreed to act honestly, in good faith and in the best interests of the Fund, and to use the degree of care, diligence and skill that a reasonably prudent person would exercise in the circumstances. We will pay the sub-advisors' fees out of the management fees we receive from each of the Funds.

The portfolio management agreements listed below, each as amended, may generally be terminated by us or the sub-advisor on 90 days' prior written notice to the other party, subject to certain exceptions.

Sub-Advisor	Date of Agreement
MIM HK	October 13, 2017
MIM US	February 28, 2011
MIC	March 9, 2018
MI Asia	January 31, 2020
MI Europe	January 31, 2020
Addenda	May 2, 2022
BlackRock	June 15, 2022

Copies of the agreements listed under this section are available for inspection by existing security holders at our principal office during regular business hours.

15. LEGAL AND ADMINISTRATIVE PROCEEDINGS

We are not aware of any ongoing legal and administrative proceedings material to the Mackenzie Funds to which we or any Mackenzie Fund is a party.

Penalties and Sanctions

We entered into a settlement agreement with the OSC on April 6, 2018 ("**Settlement Agreement**").

The Settlement Agreement states that we failed to (i) comply with National Instrument 81-105 Mutual Fund Sales Practices ("**NI 81-105**") by not meeting the minimum standards of conduct expected of industry participants in relation to certain sales practices between May 2014 and December 2017; (ii) have systems of controls and supervision over our sales practices that were sufficient to provide reasonable assurances that we were complying with our obligations under NI 81-105; and (iii) maintain adequate books, records and other documents to demonstrate our compliance with NI 81-105.

We agreed to (i) pay an administrative penalty of \$900,000 to the OSC; (ii) submit to regular reviews of our sales practices, procedures and controls by an independent consultant until the OSC is satisfied our sales practices program is fully compliant with securities laws; and (iii) pay costs of the OSC's investigation in the amount of \$150,000.

The purpose of NI 81-105 is to discourage sales practices that could be perceived as inducing dealers and their representatives to sell mutual fund securities on the basis

of incentives they were receiving (such as promotional items or activities) rather than on the basis of what is suitable for and in the best interest of their clients.

In the Settlement Agreement, the OSC noted that, in response to the OSC investigation, we (i) have dedicated significant financial and human resources to enhance our systems of controls and supervision for sales practices; (ii) retained an independent consultant in September 2017 to assess the quality of our controls around our sales practices, and the consultant noted that, overall, we have demonstrated a continuously improving compliance culture, and since 2014 has seen an increased investment in resources, both people and systems, focused on sales practices compliance; and (iii) have no disciplinary history with the OSC and cooperated with Staff in connection with Staff's investigation of the matters referred to in this Settlement Agreement.

We, and not any of our investment fund products (the "**Mackenzie Products**"), paid all monetary and non-monetary benefits at issue. The performance of the Mackenzie Products was not impacted by these matters and the management expense ratios of the Mackenzie Products were not affected. We, and not the Mackenzie Products, have paid all costs, fines and expenses relating to the resolution of this matter, including the above-noted administrative penalty, investigative costs and the fees relating to the independent compliance consultant.

16. ADDITIONAL INFORMATION

We are committed to protecting the personal information of our clients. Our Privacy Notice is available at www.mackenzieinvestments.com/en/legal-and-privacy/legal-disclaimers#privacy-protection-notice, which describes how we collect, hold, use, transfer, disclose and protect your personal information when we do business with you. Please contact us through one of the means listed at the end of the Privacy Notice if you have any questions.
