Why Invest in this fund?

- Strictly adheres to a value investment style, buying undervalued, out-of-favour businesses that have identifiable catalysts for improvement.
- Global portfolio that is diversified by sector and built using a bottom-up stock selection process.
- A thorough understanding of the macro landscape helps determine the optimal allocation between cyclical value, deep value and quality value businesses.

* The MSCI World Index is a free float adjusted, market capitalization weighted index that is designed to measure the equity market performance of developed markets. It consists of 24 developed market country indices.

** The major holdings of the Fund may, but do not necessarily, represent the largest holdings of the Fund. Rather, the major holdings are selected for their overall significance in evaluating the investment portfolio. Please see mackenzieinvestments.com/currency to view funds/products using currency derivatives to hedge exchange rate risk.
