#### Why Invest in this fund?

- Diversified across a broad investment universe of fixed income products, including federal and provincial government bonds, investment-grade corporate and securitized products, providing greater opportunities.
- Value added through longer-term positioning of term-tomaturity, credit selection and yield curve positioning.
- Holds higher quality investments with a minimum average credit rating of AA.

#### **Risk Tolerance**

LOW	MEDIUM	HIGH

Effective June 1, 2022, the redemption charge purchase option, and the low-load purchase option are no longer available for purchase, including those made through systematic purchase plans such as preauthorized contribution plans. Switching from securities of a Mackenzie Fund previously purchased under the redemption charge or low-load purchase options to securities of another Mackenzie Fund, under the same purchase option, will continue to be available until such redemption schedules expire.

" The FTSE Canada Universe Bond Index is a broad measure of Canadian bonds with terms to maturity of more than one year. It includes approximately 1,000 federal, provincial, municipal and corporate bonds rated 'BBB' or higher.

"The major holdings of the Fund may, but do not necessarily, represent the largest holdings of the Fund. Rather, the major holdings are selected for their overall significance in evaluating the investment portfolio. \*\*\*\* Credit ratings and rating categories are based on ratings issued by a designated rating organization.

† Series SC - For fixed income funds, this series is the front-end load purchase option, equivalent to series A.

+ Commissions, trailing commissions, management fees, and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The indicated rates of return the historical annual compounded total returns as of January 31, 2025 including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution, or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. Standard deviation provides a measure of the variability of returns that have occurred relative to the average return. The higher the standard deviation, the greater is the range of returns that has been experienced. Standard deviation is commonly used as a measure of risk.
