Why Invest in this fund?

- Free to roam the global fixed income universe for the best risk-adjusted opportunities by credit quality, duration, interest-rate environment, sector and currency.
- Overall average credit quality can vary, but the portfolio manager expects it to remain almost always at BBB or higher.
- Actively managed foreign currency exposure.

* Effective June 1, 2022, the redemption charge purchase option, and the low-load purchase option are no longer available for purchase, including those made through systematic purchase plans such as pre-scheduled contribution plans. Switching from securities of a Mackenzie Fund previously purchased under the redemption charge or low-load purchase options to securities of another Mackenzie Fund, under the same purchase option, will continue to be available until such redemption schedules expire.

** The BofA Merrill Lynch Global Broad Market (Hedged to USD) Index tracks the performance of investment grade debt publicly issued in the major domestic and eurobond markets, including sovereign, quasi-government, corporate, securitized and collateralized securities. Qualifying bonds must be rated "BBB" or higher and have a remaining term to maturity of at least one year. The foreign currency exposure is hedged back to the US dollar.

*** The major holdings of the Fund may, but do not necessarily, represent the largest holdings of the Fund. Rather, the major holdings are selected for their overall significance in evaluating the investment portfolio.
