

Annual Management Report of Fund Performance

For the Year Ended March 31, 2022

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting the SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus, Annual Information Form and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

MACKENZIE GLOBAL RESOURCE FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2022

Management Discussion of Fund Performance

June 3, 2022

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the Fund's performance and outlook in the year ended March 31, 2022 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "Mackenzie" and "the Manager" refer to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read *A Note on Forward-Looking Statements* on the first page of this document.

Investment Objective and Strategies

The Fund seeks long-term capital growth by investing primarily in equities of energy and natural resource companies operating anywhere in the world. At least three different countries will usually be represented in the Fund's portfolio.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for long-term investors looking for a global resource sector equity fund to hold as part of their portfolio, who can handle the volatility of stock and commodity markets, and who have a high tolerance for risk.

Results of Operations

Investment Performance

The performance of all series in the current and previous periods is shown in the *Past Performance* section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.

During the period, the Fund's Series A securities returned 51.0%, and Series LB securities returned 50.6% (after deducting fees and expenses paid by the series). This compares with a return of 9.5% for the Fund's broad-based index, the MSCI World (Net) Index, and a return of 32.9% for a blended index composed of a 55% weighting in the MSCI World Energy (Net) Index (returned 49.5%) and a 45% weighting in the MSCI World Materials (Net) Index (returned 12.4%). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Global markets generally rose but were volatile over the period. Lockdowns related to new COVID-19 variants caused chaotic economic reopening as semiconductor, commodity and labour shortages negatively affected supply chains. Russia's invasion of Ukraine disrupted energy markets, particularly in the eurozone. Several advanced economies had annual inflation above 5%, the highest in more than two decades. The period ended with a massive investor rotation out of growth stocks, which are relatively sensitive to interest rates, and into lower-priced value stocks.

Within the MSCI World (Net) Index, Norway, Canada and Denmark were the strongest-performing markets in Canadian dollar terms, while Ireland, New Zealand and Hong Kong were the weakest. The energy, information technology and real estate sectors were the strongest performers, while communication services, industrials and consumer discretionary were the weakest.

Most commodities ended the period with significant price increases. After years of underinvestment in resource industries, supply could not satisfy the increased demand resulting from the COVID-19 pandemic recovery. Oil prices rose and then surpassed US\$120 per barrel after Russia invaded Ukraine in February 2022. North America and Europe weighed the possibility of refusing to purchase Russian oil and gas against the likelihood of Russia cutting supplies to Europe.

The Fund outperformed the broad-based index because of its focus on the energy and materials sectors. Given the Fund's mandate, the return of the blended index is a more meaningful comparison.

The Fund outperformed the blended index, with an overweight position and stock selection in Canada, as well as lack of exposure to Japan, contributing to performance. In industry terms, stock selection in oil, gas and consumable fuels and in metals and mining, as well as underweight exposure to chemicals, contributed to performance.

Conversely, underweight exposure to the United States and the United Kingdom detracted from performance relative to the blended index. In industry terms, stock selection in energy equipment and services and overweight exposure to paper and forest products detracted from performance. The Fund's cash position also detracted from performance as equity markets rose.

Over the period, exposure to the United States decreased as the Fund took profits in U.S. materials stocks after strong performance. As a result, the Fund's cash position had increased temporarily at period-end.

Net Assets

The Fund's net assets decreased by 41.1% during the period to \$288.8 million. This change was composed primarily of \$133.8 million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and a decrease of \$334.9 million due to net securityholder activity (including sales, redemptions and cash distributions). The securityholder activity includes the transition out of \$451.6 million related to a reorganization (see *Recent Developments*).

Fees and Expenses

The management expense ratio ("MER") for each series during the year ended March 31, 2022, was generally similar to the MER for the year ended March 31, 2021. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MER for Series LB decreased due to a decrease in fund costs and the Manager decreasing waivers on management and/or administration fees. The Manager may discontinue the practice of absorbing management and/or administration fees at any time without prior notice to investors. The MERs for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

Ongoing uncertainty regarding the duration and long-term impact of the COVID-19 pandemic and the effectiveness of vaccines against new variants of the virus contributes to uncertainty regarding the timing of a full economic recovery. As a result, it is not possible to reliably estimate the impact of the pandemic on the financial results and condition of the Fund in future periods.

MACKENZIE GLOBAL RESOURCE FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2022

While the portfolio management team expects commodity prices to fall from peak levels, the team expects them to remain well above the lows reached in previous cycles. Supply has been unable to catch up with accelerating demand due to pandemic-related and geopolitical disruptions. Further, weak prices during the last decade forced producers to restrain capital investment, which is structurally affecting today's supplies.

While China was the main driver for commodity demand in the early 2000s, the team believes the next decade will be about infrastructure and climate action. This shift should allow prices to stabilize at higher levels than expected by current market consensus. The team believes commodity prices need to rise to encourage resource companies to help meet society's environmental aspirations. Higher prices should be reflected in higher earnings multiples – which the team views as the ultimate signal for company executives to redeploy capital and address climate change.

On September 17, 2021, the series of the Fund distributed by Quadrus Investment Services Ltd. (see *Fund Formation and Series Information*) were transitioned on a tax-deferred basis to corresponding series of Canada Life Global Resources Fund, a fund managed by Canada Life Investment Management Limited ("CLIML"), an affiliate of the Manager, with the same investment objectives, strategies and fees as the Fund. This reorganization received a positive recommendation from the Mackenzie Funds' Independent Review Committee and was approved by the investors in the affected series and securities regulators. Investors in the series offered by the Manager and the series distributed by LBC Financial Services Inc. were not affected.

Effective September 22, 2021, Atul Tiwari was appointed to the Mackenzie Funds' Independent Review Committee.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to the Manager at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. In return for the administration fees, the Manager pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

Investment funds managed by Mackenzie and its affiliates may invest in the Fund. All these investments are made on a prospectus-exempt basis in accordance with the investment objectives of those funds. At March 31, 2022, funds managed by Mackenzie owned less than 0.1% of the Fund's NAV, and funds managed by The Canada Life Assurance Company and Canada Life Investment Management Ltd. owned 45.0% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day. As a result of these investments, the Fund may be subject to large transaction risk as discussed in the Prospectus. Mackenzie manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions.

At March 31, 2022, Mackenzie had an investment of \$0.5 million in the Fund (0.2% of the Fund's NAV).

The Manager relied on a recommendation issued by the Mackenzie Funds' Independent Review Committee to proceed with the reorganization of the Fund on September 17, 2021, whereby investors holding series distributed by Quadrus Investment Services Ltd. were transitioned out of the Fund and now hold corresponding series of a fund managed by CLIML.

Past Performance

The Fund's past performance information is presented in the following charts and table. It assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The charts and table do not take into account sales, redemption, distribution or optional charges, or income taxes payable by any investor that would have reduced returns. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

On August 16, 2019, the Fund changed its mandate from investing primarily in equities of Canadian energy and natural resource companies to investing primarily in equities of energy and natural resource companies operating anywhere in the world. The past performance before this date was achieved under the previous objectives.

Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2022

MACKENZIE GLOBAL RESOURCE FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2022

Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2022. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.

All index returns are calculated in Canadian dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

Percentage Return: ¹	1 Yr	3 Yr	5 Yr	10 Yr	Since Inception ²
Series A	51.0	20.7	7.8	2.4	n/a
Series D	52.3	21.8	8.7	n/a	4.5
Series F	53.1	22.5	9.3	3.7	n/a
Series FB	52.5	22.0	9.0	n/a	11.2
Series G	51.8	21.4	8.4	3.0	n/a
Series I	51.9	21.5	8.5	3.1	n/a
Series O	54.7	23.8	10.5	5.0	n/a
Series PW	51.5	21.1	8.1	n/a	3.6
Series PWFB	53.1	22.5	n/a	n/a	9.2
Series PWX	54.7	23.8	10.5	n/a	6.1
Series R	54.7	23.8	10.5	5.0	n/a
Series LB	50.6	20.5	7.6	2.3	n/a
Series LF	n/a	n/a	n/a	n/a	24.0
Series LW	51.2	20.9	n/a	n/a	10.9
Blended Index	32.9	9.6	7.6	7.0	Note 3
MSCI World (Net) Index*	9.5	12.4	11.0	13.4	Note 4
MSCI World Energy (Net) Index	49.5	4.5	4.1	4.5	Note 5
MSCI World Materials (Net) Index	12.4	13.8	10.7	9.3	Note 6

* Broad-based index

The blended index is composed of 55% MSCI World Energy (Net) Index and 45% MSCI World Materials (Net) Index.

The MSCI World (Net) Index represents large- and mid-cap equity performance across 23 developed markets. Net total returns are calculated after the deduction of withholding tax from the foreign income and dividends of its constituents.

The MSCI World Energy (Net) Index represents large- and mid-cap equity performance across 23 developed markets. All securities in the index are classified in the energy sector as per the Global Industry Classification Standard ("GICS"). Net total returns are calculated after the deduction of withholding tax from the foreign income and dividends of its constituents.

The MSCI World Materials (Net) Index represents large- and mid-cap equity performance across 23 developed markets. All securities in the index are classified in the materials sector as per the GICS. Net total returns are calculated after the deduction of withholding tax from the foreign income and dividends of its constituents.

- (1) The percentage return differs for each series because the management fee rate and expenses differ for each series.
- (2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.
- (3) The return of the blended index since inception for each applicable series is as follows: Series D 6.4%, Series FB 8.3%, Series PW 6.9%, Series PWFB 7.6%, Series PWX 6.6%, Series LF 17.2%, Series LW 7.6%.
- (4) The return of the MSCI World (Net) Index since inception for each applicable series is as follows: Series D 11.8%, Series FB 10.6%, Series PW 12.4%, Series PWFB 11.0%, Series PWX 11.9%, Series LF -5.3%, Series LW 10.9%.
- (5) The return of the MSCI World Energy (Net) Index since inception for each applicable series is as follows: Series D 2.8%, Series FB 4.6%, Series PW 3.4%, Series PWFB 4.0%, Series PWX 3.0%, Series LF 29.4%, Series LW 4.4%.
- (6) The return of the MSCI World Materials (Net) Index since inception for each applicable series is as follows: Series D 10.0%, Series FB 11.8%, Series PW 10.2%, Series PWFB 10.6%, Series PWX 10.1%, Series LF 2.7%, Series LW 10.0%.

- (1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.
- (2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
- (3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or ETFs), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including exchange-traded funds or ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio, and providing other services. The Manager also used the management fees to fund sales commissions, trailing commissions and any other compensation (collectively "distribution-related payments") to registered dealers and brokers whose clients invest in the Fund.

LBC Financial Services Inc. ("LBC") is the principal distributor for the LBC series securities of the Fund (as listed under *Fund Formation and Series Information*) and receives a portion of the management fees that the Fund pays to the Manager. Under this arrangement, LBC was entitled to approximately 27% of the total management fees that the Manager received from the LBC series of all Mackenzie funds during the period. The Manager is responsible for paying all distribution-related payments to LBC-authorized dealers whose clients invest in the LBC series of the Fund.

The following dealers affiliated with the Manager may be entitled to distribution-related payments from the Manager on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation and Investors Group Financial Services Inc.

The Manager used approximately 44% of the total management fee revenues received from all Mackenzie funds during the period to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 41% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

MACKENZIE GLOBAL RESOURCE FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2022

Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Annual Information Form.

Date of Formation: January 3, 1978

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*.

Series Offered by Mackenzie Financial Corporation (180 Queen Street West, Toronto, Ontario, M5V 3K1; 1-800-387-0614; www.mackenzieinvestments.com)

Series A securities are offered to retail investors investing a minimum of \$500.

Series D securities are offered to retail investors investing a minimum of \$500 through a discount brokerage or other account approved by Mackenzie.

Series F securities are offered to investors who are enrolled in a dealer-sponsored fee-for-service or wrap program, who are subject to an asset-based fee rather than commissions on each transaction and who invest at least \$500; they are also available to employees of Mackenzie and its subsidiaries, and directors of Mackenzie.

Series FB securities are offered to retail investors investing a minimum of \$500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series O securities are offered only to investors investing a minimum of \$500,000 who are enrolled in Mackenzie Portfolio Architecture Service or Open Architecture Service; certain institutional investors; investors in a qualified group plan, and certain qualifying employees of Mackenzie and its subsidiaries.

Series PW securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000.

Series PWFB securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series PWX securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series R securities are offered only to other funds managed by Mackenzie on a non-prospectus basis in connection with fund-of-fund arrangements.

Series G securities are no longer available for sale, except for additional purchases by investors who have held these securities since December 11, 2017.

Series I securities are no longer available for sale.

Series Distributed by Quadrus Investment Services Ltd. (255 Dufferin Ave., London, Ontario, N6A 4K1; 1-888-532-3322; www.canadalifeinvest.ca)

Effective September 17, 2021, Series CL, Series S, Q Series, H Series, HW Series, L Series, N Series, QF Series and QFW Series securities were transitioned to Canada Life Global Resources Fund, and are no longer offered by the Fund (see *Recent Developments*). Before August 14, 2020, Q Series securities were known as Quadrus Series.

Series Distributed by LBC Financial Services Inc. (1360 René-Lévesque Blvd. West, 13th Floor, Montréal, Québec H3G 0A9; 1-800-522-1846; www.laurentianbank.ca/mackenzie)

Series LF securities were created specifically for the purpose of implementing mergers affecting the Fund and are not available for sale except for additional purchases by investors who have held these securities since November 25, 2021.

Series LB and Series LW securities are no longer available for sale, except for additional purchases by investors who have held these securities since December 11, 2017.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option, various low-load purchase options and a no-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to Mackenzie if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. All deferred sales charge purchase options will cease on or prior to June 2022. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.

Series	Inception/ Reinstatement Date	Management Fees	Administration Fees
