

Annual Management Report of Fund Performance

For the Year Ended March 31, 2020

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting the SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus, Annual Information Form and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

FIXED INCOME FUND

Management Discussion of Fund Performance

July 13, 2020

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments during the year ended March 31, 2020 (the "period"), that have affected the Fund's performance and outlook. If the Fund was established during the period, "period" represents the period from inception to the end of the fiscal period. For information on the Fund's longer-term performance, as applicable, please refer to the *Past Performance* section of the report. In this report, "Mackenzie" refers to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Investment Objective and Strategies

The Fund seeks income in U.S. dollars, with an emphasis on capital preservation, by investing primarily in short-term, high-quality corporate and government fixed income securities issued in the United States with a duration of up to 18 months.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for short-term investors seeking a U.S. dollar-denominated fixed income fund to hold as part of their portfolio, who can handle the volatility of bond markets and who have a low tolerance for risk.

The Fund is not available for purchase under registered plans, but taxable accounts may continue to purchase the Fund.

Results of Operations

Investment Performance

The performance of the Fund's Series SC securities is discussed below. The performance of all series is shown in the *Past Performance* section of the report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series.

During the period, the Fund's Series SC securities returned 0.9% (after deducting fees and expenses paid by the series). This compares with the ICE BofA 0–1 Year U.S. Corporate Index return of 1.9%. All index and series returns are calculated on a total return basis in U.S. dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Prices of global government bonds, particularly long-term bonds, rose as yields declined over the period. Investment grade corporate bond prices made smaller gains, while high-yield bond prices fell. Many global central banks reduced key interest rates, first in response to global trade tensions,

then in response to the COVID-19 crisis. Yields on 10-year and 30-year U.S. Treasury bonds and Government of Canada bonds fell to record lows. Yields in Europe and Japan, which were already negative, fell further.

The Fund underperformed the index, with holdings in term loans and security selection within corporate bonds detracting from performance. Conversely, duration positioning within term loans and corporate bonds contributed to performance.

The Fund hedged its foreign currency exposure back to the U.S. dollar, which contributed to absolute performance primarily as the Canadian dollar depreciated relative to the U.S. dollar.

Over the period, the portfolio management team increased the Fund's exposure to the United States and decreased its exposure to Canada based on the relative valuations of these countries. The team also increased the Fund's exposure to corporate bonds based on valuations.

Net Assets

The Fund's NAV increased by 84.3% to US\$15.4 million at March 31, 2020, from US\$8.4 million at March 31, 2019. This change was composed primarily of US\$7.0 million in net sales.

At March 31, 2020, 22.1% of the Fund's NAV was held by investors that individually owned 10% or more of the Fund. As a result of these investments, the Fund is subject to large transaction risk as discussed in the Prospectus. Mackenzie manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions. At March 31, 2020, Mackenzie had received no such notices.

Fees and Expenses

The management expense ratio ("MER") for Series SC of 0.95% during the year ended March 31, 2020, was slightly higher than the MER of 0.94% for the year ended March 31, 2019. The MERs (before and after waivers or absorptions, if any) for all series are presented in the *Financial Highlights* section of this report. The MERs for Series A, Series F, Series PW and Series PWFB decreased due to decreases in the management fee rates effective June 1, 2018, and August 2, 2019, as noted in the *Fund Formation and Series Information* section of the report. The MER after waivers or absorptions for Series D increased due to Mackenzie decreasing waivers on management and/or administration fees. Mackenzie may discontinue the practice of absorbing management and/or administration fees at any time without prior notice to investors.

Recent Developments

Governments worldwide have enacted emergency measures to combat the spread of the COVID-19 virus in the last several months. These measures have caused significant volatility and weakness in global equity markets and material disruption to businesses globally, resulting in an economic slowdown. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions.

MACKENZIE
Investments

MACKENZIE USD ULTRA SHORT DURATION INCOME FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2020

FIXED INCOME FUND

The duration and impact of the COVID-19 pandemic on businesses and markets, and the extent of economic relief measures provided by governments and central banks, are unknown at the reporting date and it is therefore not possible to reliably estimate the impact on the financial results and position of the Fund in future periods.

Despite monetary and fiscal policies enacted globally in an attempt to mitigate the COVID-19 crisis, the portfolio management team believes markets may be dealing with the most severe economic disruption in decades. The team also believes risk assets will face more negative news before the pandemic is contained and the economy begins to stabilize. Economic data has not come close to reaching a bottom, in the team's view. As a result, the team believes some consumers and corporations could continue to face difficulty over credit card maintenance, servicing mortgages, car loans, lines of credit, accounts payable and general debt obligations. Amidst the global pandemic, the team continues to maintain a defensive tilt to our positioning while looking for opportunities to improve the overall credit quality of the Fund.

Related Party Transactions

The following arrangements result in fees paid by the Fund to Mackenzie or to companies affiliated with the Fund.

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Mackenzie at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

At March 31, 2020, Mackenzie had an investment of US\$6,339 in the Fund (less than 0.1% of the Fund's NAV).

The Fund did not rely on an approval, positive recommendation or standing instruction from the Mackenzie Funds' Independent Review Committee with respect to any related party transactions.

Past Performance

The Fund's past performance information is presented in the following charts and table. It assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The charts and table do not take into account sales, redemption, distribution or optional charges, or income taxes payable by any investor that would have reduced returns. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2020. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.

All index returns are calculated in U.S. dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

Percentage Return: ¹	1 Yr	3 Yr	5 Yr	10 Yr	Since Inception ²
Series A	0.6	1.2	n/a	n/a	1.0
Series D	1.2	1.7	n/a	n/a	1.6

ICE BofA 0–1 Year

U.S. Corporate Index	1.9	2.1	n/a	n/a	Note 3
----------------------	-----	-----	-----	-----	--------

The ICE BofA 0–1 Year U.S. Corporate Index tracks the performance of U.S. dollar-denominated investment grade corporate debt publicly issued in the U.S. market with maturities of less than one year.

- (1) The percentage return differs for each series because the management fee rate and expenses differ for each series.
- (2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.
- (3) The return of the ICE BofA 0–1 Year U.S. Corporate Index since inception for each applicable series is as follows: Series A 1.8%, Series D 1.8%, Series F 1.8%, Series FB 1.9%, Series PW 1.8%, Series PWFB 2.1%, Series PWX 2.0%, Series SC 1.8%.

- (1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences can be found in the *Notes to Financial Statements*.
- (2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
- (3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. If in the period a series was established or reinstated, the management expense ratio is annualized from the date of inception or reinstatement. Mackenzie may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by Mackenzie to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio, and providing other services. Mackenzie also used the management fees to fund sales commissions, trailing commissions and any other compensation (collectively "distribution-related payments") to registered dealers and brokers whose clients invest in the Fund.

The following dealers affiliated with Mackenzie may be entitled to distribution-related payments from Mackenzie on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation and Investors Group Financial Services Inc.

Mackenzie used approximately 43% of the total management fee revenues received from all Mackenzie funds during the year to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 34% of the management fees paid by all applicable series of the Fund during the year. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

MACKENZIE USD ULTRA SHORT DURATION INCOME FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2020

FIXED INCOME FUND

Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Annual Information Form.

Date of Formation May 1, 2015

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*.

Series Offered by Mackenzie Financial Corporation (180 Queen Street West, Toronto, Ontario, M5V 3K1; 1-800-387-0614; www.mackenzieinvestments.com)

The minimums below are calculated in U.S. dollars.

Series A securities are offered to retail investors investing a minimum of \$500 under the redemption charge and low-load purchase options.

Series D securities are offered to retail investors investing a minimum of \$500 through a discount brokerage or other account approved by Mackenzie.

Series F securities are offered to investors who are enrolled in a dealer-sponsored fee-for-service or wrap program, who are subject to an asset-based fee rather than commissions on each transaction and who invest at least \$500; they are also available to employees of Mackenzie and its subsidiaries, and directors of Mackenzie.

Series FB securities are offered to retail investors investing a minimum of \$500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series PW securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000.

Series PWFB securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series PWX securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series SC securities are offered to retail investors investing a minimum of \$500 under the sales charge purchase option.

Series PWF securities are no longer available for sale. Effective June 1, 2018, Series PWF securities were consolidated into Series F securities.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option and various low-load purchase options. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to Mackenzie if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.
