

Annual Management Report of Fund Performance

For the Year Ended March 31, 2020

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting the SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus, Annual Information Form and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

MANAGED ASSET PORTFOLIO

Management Discussion of Fund Performance

July 13, 2020

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments during the year ended March 31, 2020 (the "period"), that have affected the Fund's performance and outlook. If the Fund was established during the period, "period" represents the period from inception to the end of the fiscal period. For information on the Fund's longer-term performance, as applicable, please refer to the *Past Performance* section of the report. In this report, "Mackenzie" refers to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Investment Objective and Strategies

The Fund seeks a balance of long-term capital growth and income, with an emphasis on long-term capital growth, by investing primarily in exchange-traded funds to gain exposure to Canadian and foreign equity and fixed income securities and other asset categories. The Fund may also invest in other mutual funds or in securities directly. The Fund's asset mix will generally range between 50%–70% equities and 30%–50% fixed income securities. The Fund diversifies in terms of geographic exposure, equity factor exposure, sector exposure, company market capitalization, investment style, credit quality and duration.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for medium- to long-term investors looking for a managed asset portfolio fund to hold as a key part of their portfolio, who can handle the volatility of stock and bond markets, and who have a low to medium tolerance for risk.

Results of Operations

Investment Performance

The performance of the Fund's Series A securities is discussed below. The performance of all series is shown in the *Past Performance* section of the report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series.

During the period, the Fund's Series A securities returned -7.0% (after deducting fees and expenses paid by the series). This compares with a return of -6.4% for the Fund's broad-based index, the MSCI AC (All Country) World (Net) Index, and a return of -2.9% for a blended index.* All

* The blended index is composed of a 45% weighting in the MSCI AC (All Country) World (Net) Index (returned -6.4%), a 30% weighting in the FTSE Canada Universe Bond Index (returned 4.5%), a 15% weighting in the S&P/TSX Composite Index (returned -14.2%) and a 10% weighting in the ICE BofA Global Broad Market (Hedged) Index (returned 6.3%).

index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Global equity markets, including Canada's, rallied strongly into February despite weakening economic data, then fell sharply in March in response to the worldwide health measures put into place to mitigate the impact of the COVID-19 pandemic. Crude oil prices declined markedly in response to global production increases and lower demand due to the pandemic. The U.S. Federal Reserve, the European Central Bank and many other central banks reduced key interest rates, first in response to global trade tensions, then in reaction to COVID-19. Prices of global government bonds, particularly long-term bonds, rose as yields declined over the period. Investment grade corporate bond prices made smaller gains, while high-yield bond prices fell. A weaker Canadian dollar late in the period boosted returns for Canadian investors.

Within the MSCI AC (All Country) World (Net) Index, Denmark, Switzerland and Taiwan were the strongest-performing countries in Canadian dollar terms, while Argentina, Colombia and Chile were the weakest. From a sector perspective, information technology, health care and consumer staples were the strongest performers, while energy, financials and materials were the weakest.

Within the S&P/TSX Composite Index, information technology, utilities and communication services were the strongest sectors, while health care, energy and consumer discretionary were the weakest.

The following discussion reflects the Fund's allocation decisions and the activities and performance of its underlying exchange-traded funds ("ETFs"). The Fund underperformed both the broad-based index and the blended index, with holdings in Canadian equities detracting from performance. Conversely, the Fund's allocation to fixed income, which outperformed equities, contributed to performance relative to the broad-based index. Given the Fund's mandate, the return of the blended index is a more meaningful comparison.

Relative to the blended index, the Fund's holdings in high-yield bonds detracted from performance. Conversely, an underweight allocation to equities contributed to performance.

Within the equity portion of the Fund, underweight exposure to Japan and stock selection in Canada detracted from performance. On a sector basis, an underweight position and stock selection in information technology detracted, as did stock selection in health care and consumer discretionary. Conversely, stock selection in South Africa and Australia contributed to performance, as did stock selection in the materials sector.

Within the fixed income portion of the Fund, security selection among corporate bonds in the energy and industrial sectors detracted from performance. Conversely, yield curve positioning in government bonds contributed to performance.

The Fund's foreign currency exposure is actively managed to help mitigate risk and take advantage of opportunities at the total portfolio level. During the period, currency activities detracted from performance primarily as the U.S. dollar appreciated relative to the Canadian dollar.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2020

MANAGED ASSET PORTFOLIO

Over the period, the Fund's exposure to fixed income increased, as exposure to foreign government bonds increased with a new allocation to Mackenzie Emerging Markets Bond Index ETF (CAD-Hedged). Exposure to the United States increased, while exposure to Canada decreased, as a result of portfolio activity.

Changes to the portfolio also included new allocations to Mackenzie Global Leadership Impact ETF and Mackenzie International Equity Index ETF, and the elimination of the allocations to Mackenzie Maximum Diversification US Index ETF and Mackenzie Canadian Aggregate Bond Index ETF.

Net Assets

The Fund's NAV increased by 53.3% to \$48.8 million at March 31, 2020, from \$31.8 million at March 31, 2019. This change was composed primarily of \$4.3 million in net losses (after including dividend and interest income) from investment performance, after deducting fees and expenses, and \$21.3 million in net sales.

Fees and Expenses

The management expense ratio ("MER") for Series A of 1.87% during the year ended March 31, 2020, was lower than the MER of 1.99% for the year ended March 31, 2019. The MERs (before and after waivers or absorptions, if any) for all series are presented in the *Financial Highlights* section of this report. The MERs for certain series decreased due to a decrease in fund costs and decreases in the management fee rates effective June 1, 2018, and/or August 2, 2019, as noted in the *Fund Formation and Series Information* section of the report.

Recent Developments

Governments worldwide have enacted emergency measures to combat the spread of the COVID-19 virus in the last several months. These measures have caused significant volatility and weakness in global equity markets and material disruption to businesses globally, resulting in an economic slowdown. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions.

The duration and impact of the COVID-19 pandemic on businesses and markets, and the extent of economic relief measures provided by governments and central banks, are unknown at the reporting date and it is therefore not possible to reliably estimate the impact on the financial results and position of the Fund in future periods.

On July 19, 2019, Nelson Arruda of the Mackenzie Multi-Asset Strategies team assumed responsibility from Alain Bergeron as lead portfolio manager of the Fund.

The team believes slowing the spread of the COVID-19 pandemic came at a steep economic cost, and expects sharp contractions in gross domestic product globally. To combat this, major central banks have moved to ease rates and improve liquidity in a number of markets, while governments have announced fiscal packages of unprecedented size to support households and businesses.

Looking ahead, the team believes the macro outlook relates mainly to the duration of the economic lockdown and the pace of reopening of economies. The team expects the speed of the economic recovery to depend critically on the prevention of business failures so that unemployed workers can quickly return to work, allowing income and production to normalize. The team expects bond yields to remain low until economies return to a more normal state, while equity market volatility may continue.

Related Party Transactions

The following arrangements result in fees paid by the Fund to Mackenzie or to companies affiliated with the Fund.

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Mackenzie at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

At March 31, 2020, Mackenzie had an investment of \$19,365 in the Fund (less than 0.1% of the Fund's NAV).

The Fund did not rely on an approval, positive recommendation or standing instruction from the Mackenzie Funds' Independent Review Committee with respect to any related party transactions.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2020

MANAGED ASSET PORTFOLIO

Past Performance

The Fund's past performance information is presented in the following charts and table. It assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The charts and table do not take into account sales, redemption, distribution or optional charges, or income taxes payable by any investor that would have reduced returns. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Annual Information Form.

Date of Formation January 15, 2018

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*.

Series Offered by Mackenzie Financial Corporation (180 Queen Street West, Toronto, Ontario, M5V 3K1; 1-800-387-0614; www.mackenzieinvestments.com)

Series A, Series T5 and Series T8 securities are offered to retail investors investing a minimum of \$500 (\$5,000 for Series T5 and Series T8). Investors in Series T5 and Series T8 securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

Series AR securities are offered to retail investors in a Registered Disability Savings Plan offered by Mackenzie.

Series D securities are offered to retail investors investing a minimum of \$500 through a discount brokerage or other account approved by Mackenzie.

Series F, Series F5 and Series F8 securities are offered to investors who are enrolled in a dealer-sponsored fee-for-service or wrap program, who are subject to an asset-based fee rather than commissions on each transaction and who invest at least \$500 (\$5,000 for Series F5 and Series F8); they are also available to employees of Mackenzie and its subsidiaries, and directors of Mackenzie. Investors in Series F5 and Series F8 securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

Series FB and Series FB5 securities are offered to retail investors investing a minimum of \$500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series FB5 securities also want to receive a monthly cash flow of 5% per year.

Series O securities are offered only to investors investing a minimum of \$500,000 who are enrolled in Mackenzie Portfolio Architecture Service or Open Architecture Service; certain institutional investors; investors in a qualified group plan, and certain qualifying employees of Mackenzie and its subsidiaries.

Series PW, Series PWT5 and Series PWT8 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors in Series PWT5 and Series PWT8 securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

Series PWFB and Series PWFB5 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series PWFB5 securities also want to receive a monthly cash flow of 5% per year.

Series PWR securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000 in a Registered Disability Savings Plan offered by Mackenzie.

Series PWX and Series PWX5 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series PWX5 securities also want to receive a monthly cash flow of 5% per year.

Series PWF and Series PWF5 securities are no longer available for sale. Effective June 1, 2018, Series PWF and Series PWF5 securities were consolidated into Series F and Series F5 securities, respectively.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option and a low-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to Mackenzie if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.
