

Annual Management Report of Fund Performance

For the Period Ended March 31, 2025

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting the SEDAR+ website at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures or proxy voting disclosure record. For more information, please refer to the Fund's Simplified Prospectus and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

MACKENZIE GLOBAL CORPORATE FIXED INCOME FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended March 31, 2025

Management Discussion of Fund Performance

June 4, 2025

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the Fund's performance and outlook in the year ended March 31, 2025 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "Mackenzie" and "the Manager" refer to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read *A Note on Forward-Looking Statements* on the first page of this document.

Investment Objective and Strategies

The Fund seeks to generate income with potential for long-term capital growth by investing primarily in fixed income securities of corporate issuers, anywhere in the world.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for short- to medium-term investors looking for a global fixed income fund to hold as part of their portfolio, who can handle the volatility of bond markets and who have a low tolerance for risk.

Results of Operations

Investment Performance

Investment performance is not presented because the Fund has not issued securities for the full 12-month period.

Environmental, Social and Governance ("ESG") Integration

ESG factors played a role in the portfolio management team's decision to add a position in a bond issued by The Toronto-Dominion Bank ("TD," 4.48%, 01-18-2028). These bonds lagged peers in 2024 due to ongoing investigations into money laundering. The bank has taken proactive steps, including a US\$450 million provision for potential fines and a US\$365 million investment in strengthening anti-money laundering controls. The team believes these measures align with regulatory expectations and support an improving ESG trajectory. Despite the associated legal and reputational risks, the team viewed the market's ESG risk assessment as overly conservative and saw a relative value opportunity given TD's strong credit fundamentals.

Net Assets

From its inception on June 13, 2024, to March 31, 2025, the Fund experienced \$8.1 million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and an increase of \$151.8 million due to net securityholder activity (including sales, redemptions and cash distributions).

Fees and Expenses

The annualized management expense ratio ("MER") for each series during the period ended March 31, 2025, is presented in the *Financial Highlights* section of this report.

Recent Developments

The portfolio management team believes that the U.S. Federal Reserve's federal funds rate reductions over the period aligned with market expectations and demonstrated the central bank's willingness to make significant moves in its policy stance when necessary. The team expects the Federal Reserve to maintain a cautious approach as it gauges inflation trends amid uncertainty related to trade and tariffs.

As a result of unattractive valuations for high-yield assets and an uncertain market environment, the team favours sectors that are less sensitive to the economic cycle. The team has also reduced exposure to the sectors that are most likely to be affected by increasing tariffs. Because the team expects trade conflicts and weakening consumer confidence to contribute to risk-averse market sentiment, it continues to focus on higher-quality issuers of high-yield debt.

The following changes to the Mackenzie Funds' Independent Review Committee occurred:

- effective September 13, 2023, Saijal Patel was appointed;
- effective March 5, 2024, Atul Tiwari resigned; and
- effective April 30, 2024, the terms for Robert Hines and George Hucal expired, and Rebecca Cowdery was appointed.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to the Manager at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, the Manager pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

Investment funds managed by Mackenzie and its affiliates may invest in the Fund. All these investments are made on a prospectus-exempt basis in accordance with the investment objectives of those funds. At March 31, 2025, funds managed by Mackenzie owned 58.6% of the Fund's NAV, funds managed by I.G. Investment Management, Ltd. owned 25.4% of the Fund's NAV, and funds managed by The Canada Life Assurance Company and Canada Life Investment Management Ltd. owned 15.8% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day. As a result of these investments, the Fund may be subject to large transaction risk as discussed in the Fund's Simplified Prospectus. Mackenzie manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions.

At March 31, 2025, Mackenzie had an investment of \$0.02 million in the Fund (less than 0.1% of the Fund's NAV).

During the period, the Fund received \$0.02 million in income distributions from investments in exchange-traded funds ("ETFs") managed by Mackenzie to offset fees paid within those ETFs. There is no assurance that these distributions will continue in the future.

The Fund did not rely on an approval, positive recommendation or standing instruction from the Mackenzie Funds' Independent Review Committee with respect to any related party transactions in the period.

Past Performance

Past performance is not presented because the Fund has not issued securities for the full 12-month period.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended March 31, 2025

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for each of the fiscal periods presented below. If during the period a fund or series was established or reinstated, "period" represents the period from inception or reinstatement to the end of that fiscal period. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

- (1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.
- (2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
- (3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

(1) This information is provided as at the end of the fiscal period shown.

(2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.

(3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment. The Manager may reimburse the Fund for certain brokerage commissions and other transaction costs (including those payable to the custodian or its agents). Mackenzie may make these reimbursements at its discretion and stop these reimbursements at any time without notice.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio, and providing other services. The Manager also used the management fees to fund sales commissions, trailing commissions and any other compensation (collectively "distribution-related payments") to registered dealers and brokers whose clients invest in the Fund.

The following dealers affiliated with the Manager may be entitled to distribution-related payments from the Manager on the same basis as unrelated registered brokers and dealers: Investors Group Securities Inc. and Investors Group Financial Services Inc.

The Manager used approximately 42% of the total management fee revenues received from all Mackenzie funds during the period to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 9% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions paid for that series. Because the Fund is in its first year, the percentage of management fees used to fund such distribution-related payments is not representative.

MACKENZIE GLOBAL CORPORATE FIXED INCOME FUND

Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Simplified Prospectus.

Date of Formation: June 6, 2024

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed under *Financial Highlights*.

Series Offered by Mackenzie Financial Corporation (180 Queen Street West, Toronto, Ontario, M5V 3K1; 1-800-387-0614; www.mackenzieinvestments.com)

Series A and Series T5 securities are offered to retail investors investing a minimum of \$500 (\$5,000 for Series T5). Investors in Series T5 securities also want to receive a monthly cash flow of 5% per year.

Series AR securities are offered to retail investors in a Registered Disability Savings Plan offered by Mackenzie.

Series CL securities are offered exclusively to mutual funds and segregated funds managed by The Canada Life Assurance Company and its subsidiaries.

Series D securities are offered to retail investors investing a minimum of \$500 through a discount brokerage or other account approved by Mackenzie.

Series F and Series F5 are offered to investors who are enrolled in a dealer-sponsored fee-for-service or wrap program, who are subject to an asset-based fee rather than commissions on each transaction and who invest at least \$500 (\$5,000 for Series F5); they are also available to employees of Mackenzie and its subsidiaries, and directors of Mackenzie. Investors in Series F5 securities also want to receive a monthly cash flow of 5% per year.

Series FB securities are offered to retail investors investing a minimum of \$500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series IG securities are offered exclusively to mutual funds managed by I.G. Investment Management, Ltd.

Series O securities are offered only to investors investing a minimum of \$500,000 who are enrolled in Mackenzie Portfolio Architecture Service or Open Architecture Service; retail investors investing a minimum of \$5 million, certain institutional investors; investors in a qualified group plan, and certain qualifying employees of Mackenzie and its subsidiaries.

Series PW and Series PWT5 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors in Series PWT5 securities also want to receive a monthly cash flow of 5% per year.

Series PWFB securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series PWR securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000 in a Registered Disability Savings Plan offered by Mackenzie.

Series PWX securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series R securities are offered only to other funds managed by Mackenzie on a non-prospectus basis in connection with fund-of-fund arrangements.

Series SC and Series S5 securities are offered to retail investors investing a minimum of \$500 (\$5,000 for Series S5) under the sales charge purchase option. Investors in Series S5 securities also want to receive a monthly cash flow of 5% per year.

An investor may purchase the Fund under a sales charge purchase option and a no-load purchase option. Not all purchase options are available under each series of the Fund. The sales charge under the sales charge purchase option is negotiated by the investor with their dealer. Investors who previously purchased other Mackenzie funds under a redemption charge purchase option and low-load 3 purchase option (collectively the "deferred sales charge purchase options") may switch to securities of the Fund, under the same deferred sales charge purchase option, until such time as their redemption schedule has expired. For further details, please refer to the Fund's Simplified Prospectus and Fund Facts.
