Annual Management Report of Fund Performance For the Year Ended March 31, 2025

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting the SEDAR+ website at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

June 4, 2025

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the Fund's performance and outlook in the year ended March 31, 2025 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "Mackenzie" and "the Manager" refer to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read A Note on Forward-Looking Statements on the first page of this document.

Investment Objective and Strategies

The Fund seeks long-term capital growth by investing primarily in equities of global small- to mid-capitalization companies, either directly or through other mutual funds.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for medium- to long-term investors looking for a global equity fund to hold as part of their portfolio, who can handle the volatility of stock markets and who have a medium tolerance for risk.

Results of Operations

Investment Performance

The performance of all series in the current and previous periods is shown in the *Past Performance* section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.

During the period, the Fund's Series A securities returned 0.0%, and Series LB securities returned -0.1% (after deducting fees and expenses paid by the series). This compares with a return of 13.9% for the Fund's broad-based index, the MSCI AC (All Country) World (Net) Index, and a return of 8.2% for the Fund's narrow index, the MSCI ACWI SMID Cap (Net) Index. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Global equity market performance was mixed over the period in response to shifting expectations regarding central bank monetary policy and geopolitical tensions. The materials sector was negatively affected by subdued commodities demand in China. Rate cuts by the U.S. Federal Reserve and the European Central Bank helped investor sentiment in the United States and Europe. Trade disputes, including concerns about U.S. tariffs, pressured global markets late in the period. Currency movements generally boosted returns in Canadian dollar terms.

Global small- and mid-capitalization stocks generally underperformed largecapitalization stocks. Within the MSCI ACWI SMID Cap (Net) Index, Africa and the Middle East and Europe were the best-performing regions in Canadian dollar terms, while Latin America and Asia Pacific (ex Japan) were the weakest. The utilities, financials and communication services sectors were the strongest performers, while information technology, materials and health care were the weakest.

The following discussion reflects the Fund's allocation decisions and the activities and performance of its underlying investment funds and other directly held securities. The Fund underperformed both the broad-based index and the narrow index, with stock selection in the United States detracting from performance. In sector terms, stock selection in health care and information technology, as well as underweight exposure to financials, detracted from performance. Conversely, stock selection in the industrials sector contributed to performance relative to both indices. Relative to the broad-based index, stock selection in the consumer staples sector also detracted from performance, while stock selection in the Netherlands and Denmark contributed to performance. Given the Fund's mandate, the return of the narrow index is a more meaningful comparison.

Relative to the narrow index, stock selection in Australia also detracted from performance. In sector terms, overweight exposure to information technology detracted from performance. Conversely, an underweight position and stock selection in the consumer discretionary sector contributed to performance relative to the narrow index.

Over the period, neither portfolio activity nor market developments significantly changed the positioning of the Fund.

Environmental, Social and Governance ("ESG") Integration

ESG factors played a role in the portfolio management team's decision to add a new position in Jack Henry & Associates, Inc., a financial technology company that aligns its sustainability accounting with the Sustainability Accounting Standards Board and the Task Force of Climate-Related Financial Disclosures regarding scope 1, 2 and 3 greenhouse gas emissions. (The Greenhouse Gas Protocol defines scope 1 as direct emissions from fuel burned in a company's owned or controlled assets and/or chemical leaks and spills, scope 2 as indirect emissions from purchased electricity, cooling, heat and/or steam, and scope 3 as indirect emissions from sources not owned or controlled by the company.) Jack Henry has committed to an absolute scope 1 and scope 2 emission reduction target of 42% by 2030 and engages with key suppliers regarding scope 3 emissions. The company has focused on real estate optimization, co-location and cloud computing strategies, renewables, aviation management and overall energy efficiency. From a governance perspective, the company seeks diversity of tenure, gender and age in its board composition while maintaining solid board independence.

Net Assets

The Fund's net assets decreased by 2.4% during the period to \$977.5 million. This change was composed primarily of \$22.4 million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and a decrease of \$46.9 million due to net securityholder activity (including sales, redemptions and cash distributions).

Fees and Expenses

The management expense ratio ("MER") for each series during the year ended March 31, 2025, was generally similar to the MER for the year ended March 31, 2024. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

The U.S. portfolio maintained overweight exposure to the health care, non-cyclical industrials and information technology sectors. Sector allocations are generally a residual effect of the stock selection process, and the portfolio is typically more heavily invested in these sectors because of their sustainable growth potential. Despite economic uncertainty and market corrections toward the end of the period, the portfolio management team increased exposure to cyclical stocks, which are more sensitive to the economic cycle.

At period-end, European equity valuations were at their lowest relative to U.S. equities in over a decade. In the European portfolio management team's opinion, this presented an opportunity for outperformance. The team believes positive momentum could be driven by the more stable European political landscape, as well as by the European Central Bank's more accommodative monetary policy versus the U.S. Federal Reserve's "wait-and-see" approach. However, the team believes that the scale and speed of the renewed surge in U.S. protectionist policies could have significant implications for Europe.

The Asian portfolio management team believes India's economy is relatively sheltered from the effects of the prospective U.S. tariffs on Asian economies; due to this and an attractive equity market valuation, the portfolio's exposure to India was increased. The team believes China's technology advances are solidifying the country's position as a global economic powerhouse. Within China technology, the portfolio switched from hardware, which was vulnerable to higher tariffs, to semiconductors, which could benefit from China raising tariffs on U.S. products. Exposure to Australia and South Korea was decreased in response to global tariff uncertainties affecting export-driven markets. Given the current geopolitical climate and the trend of countries rearming, exposure to defence-related stocks was increased.

The following changes to the Mackenzie Funds' Independent Review Committee occurred:

- effective September 13, 2023, Saijal Patel was appointed;
- effective March 5, 2024, Atul Tiwari resigned; and
- effective April 30, 2024, the terms for Robert Hines and George Hucal expired, and Rebecca Cowdery was appointed.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to the Manager at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, the Manager pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

Investment funds managed by Mackenzie and its affiliates may invest in the Fund. All these investments are made on a prospectus-exempt basis in accordance with the investment objectives of those funds. At March 31, 2025, funds managed by The Canada Life Assurance Company and Canada Life Investment Management Ltd. owned 81.4% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day. As a result of these investments, the Fund may be subject to large transaction risk as discussed in the Fund's Simplified Prospectus. Mackenzie manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions. At March 31, 2025, Mackenzie had an investment of 0.02 million in the Fund (less than 0.1% of the Fund's NAV).

The Fund did not rely on an approval, positive recommendation or standing instruction from the Mackenzie Funds' Independent Review Committee with respect to any related party transactions in the period.

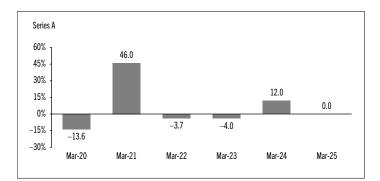

Past Performance

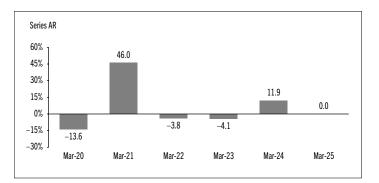

The Fund's performance information assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

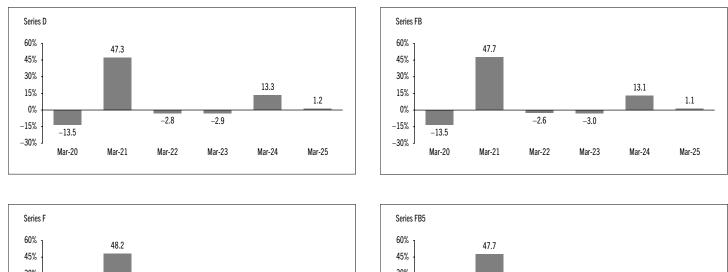

Year-by-Year Returns

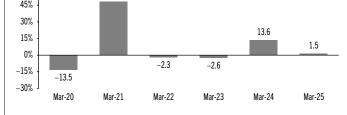

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2025. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.

All index returns are calculated in Canadian dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

(1) This information is provided as at the end of the fiscal period shown.

(2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.

(3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment. The Manager may reimburse the Fund for certain brokerage commissions and other transaction costs (including those payable to the custodian or its agents). Mackenzie may make these reimbursements at its discretion and stop these reimbursements at any time without notice.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio, and providing other services. The Manager also used the management fees to fund sales commissions, trailing commissions and any other compensation (collectively "distribution-related payments") to registered dealers and brokers whose clients invest in the Fund.

LBC Financial Services Inc. ("LBC") is the principal distributor for the LBC series securities of the Fund (as listed under *Fund Formation and Series Information*) and receives a portion of the management fees that the Fund pays to the Manager. Under this arrangement, LBC was entitled to approximately 25% of the total management fees that the Manager received from the LBC series of all Mackenzie funds during the period. The Manager is responsible for paying all distribution-related payments to LBC-authorized dealers whose clients invest in the LBC series of the Fund.

The following dealers affiliated with the Manager may be entitled to distributionrelated payments from the Manager on the same basis as unrelated registered brokers and dealers: Investors Group Securities Inc. and Investors Group Financial Services Inc.

The Manager used approximately 42% of the total management fee revenues received from all Mackenzie funds during the period to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 33% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions paid for that series.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2025

Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Simplified Prospectus.

Date of Formation: January 31, 2020

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed under Financial Highlights.

Series Offered by Mackenzie Financial Corporation (180 Queen Street West, Toronto, Ontario, M5V 3K1; 1-800-387-0614; www.mackenzieinvestments.com)

Series A, Series T5 and Series T8 securities are offered to retail investors investing a minimum of \$500 (\$5,000 for Series T5 and Series T8). Investors in Series T5 and Series T8 securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

Series AR securities are offered to retail investors in a Registered Disability Savings Plan offered by Mackenzie.

Series D securities are offered to retail investors investing a minimum of \$500 through a discount brokerage or other account approved by Mackenzie.

Series F, Series F5 and Series F8 securities are offered to investors who are enrolled in a dealer-sponsored fee-for-service or wrap program, who are subject to an asset-based fee rather than commissions on each transaction and who invest at least \$500 (\$5,000 for Series F5 and Series F8); they are also available to employees of Mackenzie and its subsidiaries, and directors of Mackenzie. Investors in Series F5 and Series F8 securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

Series FB and Series FB5 securities are offered to retail investors investing a minimum of \$500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series FB5 securities also want to receive a monthly cash flow of 5% per year.

Series G securities are offered to retail investors investing a minimum of \$500, who are in Group Plans.

Series 0 securities are offered only to investors investing a minimum of \$500,000 who are enrolled in Mackenzie Portfolio Architecture Service or Open Architecture Service; retail investors investing a minimum of \$5 million, certain institutional investors; investors in a qualified group plan, and certain qualifying employees of Mackenzie and its subsidiaries.

Series PW, Series PWT5 and Series PWT8 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors in Series PWT5 and Series PWT8 securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

Series PWFB and Series PWFB5 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series PWFB5 securities also want to receive a monthly cash flow of 5% per year.

Series PWR securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000 in a Registered Disability Savings Plan offered by Mackenzie.

Series PWX and Series PWX8 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series PWX8 securities also want to receive a monthly cash flow of 8% per year.

Series S securities are offered to The Canada Life Assurance Company and certain other mutual funds, but may be sold to other investors as determined by Mackenzie.

Series CL securities are not available for sale.

Series I, Series M and Series R securities were created specially for the purpose of implementing mergers affecting the Fund and are not available for sale.

Series Distributed by LBC Financial Services Inc. (1360 René-Lévesque Blvd. West, 13th Floor, Montréal, Québec H3G 0A9; 1-800-522-1846;

www.laurentianbank.ca/mackenzie)

Series LB securities are offered to retail investors investing a minimum of \$500.

Series LF securities are offered to retail investors investing a minimum of \$500, who are enrolled in the LBC Private Banking sponsored fee-for-service program.

Series LW securities are offered through our Preferred Pricing Program to certain high net worth investors who invest a minimum of \$100,000.

Effective June 1, 2022, an investor may purchase the Fund under a sales charge purchase option and a no-load purchase option. Not all purchase options are available under each series of the Fund. The sales charge under the sales charge purchase option is negotiated by the investor with their dealer. Securities purchased before June 1, 2022, under the redemption charge purchase option and low-load 3 purchase option (collectively the "deferred sales charge purchase options") may continue to be held in investor accounts. Investors may switch from securities of a Mackenzie fund previously purchased under these deferred sales charge purchase options to securities of other Mackenzie funds, under the same purchase option, until such time as the redemption schedule has expired. For further details, please refer to the Fund's Simplified Prospectus and Fund Facts.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2025
