

MACKENZIE PRECIOUS METALS FUND

Annual Management Report of Fund Performance

For the Year Ended March 31, 2022

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting the SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus, Annual Information Form and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

MACKENZIE PRECIOUS METALS FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2022

Management Discussion of Fund Performance

June 3, 2022

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the Fund's performance and outlook in the year ended March 31, 2022 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "Mackenzie" and "the Manager" refer to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read *A Note on Forward-Looking Statements* on the first page of this document.

On May 20, 2021, the Mackenzie Funds' Independent Review Committee approved a proposal to wind up Mackenzie Financial Capital Corporation and merge its suite of Corporate Class funds into corresponding trust fund equivalents because it was in a taxable position. As a result, investors holding securities of Mackenzie Precious Metals Class (the "Predecessor Fund") were merged into the corresponding series of the Fund on a tax-deferred basis on July 30, 2021. The fees, the investment objective and strategies, and the portfolio management team of the Fund are substantially similar to those of the Predecessor Fund. Consequently the information in this report is presented as if the Fund had existed since the inception of the Predecessor Fund.

Investment Objective and Strategies

The Fund seeks long-term capital growth by investing primarily in precious metals or in equities of precious metals companies located anywhere in the world.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for long-term investors looking for a precious metals sector fund to hold as part of their portfolio, who can handle the volatility of stock and metals markets, and who have a high tolerance for risk.

Results of Operations

Investment Performance

The performance of all series in the current and previous periods is shown in the *Past Performance* section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.

During the period, the Fund's Series A securities returned 24.3% (after deducting fees and expenses paid by the series). This compares with a return of 9.5% for the Fund's broad-based index, the MSCI World (Net) Index, and a return of 24.8% for the Fund's narrow index, the S&P/TSX Global Gold Index. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Global markets generally rose but were volatile over the period. Lockdowns related to new COVID-19 variants caused chaotic economic reopening as semiconductor, commodity and labour shortages negatively affected supply chains. Russia's invasion of Ukraine disrupted energy markets, particularly in the eurozone. Several advanced economies had annual inflation above 5%, the highest in more than two decades. The period ended with a massive investor rotation out of growth stocks, which are relatively sensitive to interest rates, and into lower-priced value stocks.

The price of gold ended the period with a gain of close to 13% in Canadian dollar terms. Gold is often seen as a hedge against inflation, but the price rose only modestly for most of the period although inflation was much higher than expected. In response, most central banks began tightening monetary policy. Following the Russian invasion of Ukraine in February 2022, the price of gold rallied to its highest level of the period.

The Fund outperformed the broad-based index because of its exposure to gold. Given the Fund's mandate, the return of the narrow index is a more meaningful comparison.

The Fund underperformed the narrow index, with an underweight position and stock selection in the United States and holdings in the United Kingdom detracting from performance. In sub-industry terms, stock selection in precious metals and minerals and holdings in silver detracted from performance.

Conversely, stock selection in Canada and holdings in Australia contributed to performance. In sub-industry terms, stock selection in gold and holdings in copper contributed to performance.

The Fund held call options on the price of gold, which also contributed to performance as the price increased.

Over the period, the Fund's exposure to the precious metals and minerals sub-industry decreased as holdings were sold in favour of opportunities in copper, diversified metals and mining, and gold. This activity increased the Fund's exposure to Canada.

Net Assets

The Fund's net assets decreased by 40.3% during the period to \$215.1 million. This change was composed primarily of \$94.6 million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and a decrease of \$239.7 million due to net securityholder activity (including sales, redemptions and cash distributions). The securityholder activity includes the transition out of \$211.4 million related to a reorganization (see *Recent Developments*).

Fees and Expenses

The management expense ratio ("MER") for each series during the year ended March 31, 2022, was generally similar to the MER for the year ended March 31, 2021. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

Ongoing uncertainty regarding the duration and long-term impact of the COVID-19 pandemic and the effectiveness of vaccines against new variants of the virus contributes to uncertainty regarding the timing of a full economic recovery. As a result, it is not possible to reliably estimate the impact of the pandemic on the financial results and condition of the Fund in future periods.

In the portfolio management team's view, inflation will likely remain elevated due to unprecedented monetary and fiscal stimulus, deglobalization, the transition away from fossil fuels and a tight labour market caused by aging workers and the pandemic. Neither the U.S. Federal Reserve nor financial market participants have

MACKENZIE PRECIOUS METALS FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2022

experienced higher-than-expected inflation for many decades, which raises the possibility of policy error and substantial market volatility. If the Federal Reserve's interest rate increases are too late, it could lose control over inflation expectations, which the team believes would be positive for gold and other hard assets. Conversely, overtightening of monetary conditions could prematurely terminate the economic cycle, in which case gold would be sought after as a safe-haven asset.

Gold offers an attractive alternative for Canadian investors who have reached their maximum allocation to equities, are reluctant to hold low-yielding bonds or are concerned about the consequences of excessive monetary supply, deglobalization and rising geopolitical risks.

With the approval of the Mackenzie Funds' Independent Review Committee, the Predecessor Fund merged into the Fund on July 30, 2021.

Effective September 22, 2021, Atul Tiwari was appointed to the Mackenzie Funds' Independent Review Committee.

On March 11, 2022, the series of the Fund distributed by Quadrus Investment Services Ltd. (see *Fund Formation and Series Information*) were transitioned on a tax-deferred basis to corresponding series of Canada Life Precious Metals Fund, a fund managed by Canada Life Investment Management Limited ("CLIML"), an affiliate of the Manager, with the same investment objectives, strategies and fees as the Fund. This reorganization received a positive recommendation from the Mackenzie Funds' Independent Review Committee and was approved by the investors in the affected series and securities regulators. Investors in the series offered by the Manager were not affected.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to the Manager at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. In return for the administration fees, the Manager pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

The Manager is wholly owned by IGM Financial Inc., which in turn is a subsidiary of Power Corp. of Canada. Companies related to Power Corp. of Canada are therefore considered affiliates of the Manager. At March 31, 2022, the Fund held the following investment(s) in companies affiliated with the Manager: \$1.1 million invested in securities issued by Umicore SA. The investment(s) represented 0.5% of the Fund's NAV. In making the investment(s), the Manager relied on the approval of the Mackenzie Funds' Independent Review Committee. The Independent Review Committee issued the approval on the basis that the investment(s) would be made in compliance with the Manager's policies. The Manager's policies are designed to ensure that any related party transaction (i) is made free from any influence by an entity related to the Manager and without taking into account any considerations relevant to an entity related to the Manager; (ii) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; and (iii) achieves a fair and reasonable result for the Fund.

The Manager relied on an approval issued by the Mackenzie Funds' Independent Review Committee to proceed with the merger of the Predecessor Fund into the Fund on July 30, 2021. The Manager also relied on a recommendation issued by the Mackenzie Funds' Independent Review Committee to proceed with the reorganization of the Fund on March 11, 2022, whereby investors holding series distributed by Quadrus Investment Services Ltd. were transitioned out of the Fund and now hold corresponding series of a fund managed by CLIML.

Past Performance

The Fund's past performance information is presented in the following charts and table. It assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The charts and table do not take into account sales, redemption, distribution or optional charges, or income taxes payable by any investor that would have reduced returns. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

The past performance before July 30, 2021, is based on the performance of the applicable series of the Predecessor Fund, which was merged into the corresponding series of the Fund on that date.

Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

MACKENZIE PRECIOUS METALS FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2022

Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2022. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.

All index returns are calculated in Canadian dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

Percentage Return: ¹	1 Yr	3 Yr	5 Yr	10 Yr	Since Inception ²
Series A	24.3	29.3	14.7	4.3	n/a
Series D	25.5	30.3	15.7	n/a	16.4
Series F	26.5	30.9	16.2	5.5	n/a
Series FB	25.8	30.6	15.9	n/a	21.9
Series I	25.1	30.0	15.4	4.9	n/a
Series O	28.1	32.1	17.4	6.8	n/a
Series PW	24.8	29.7	15.1	n/a	14.3
Series PWFB	26.4	30.8	n/a	n/a	15.9
Series PWX	28.2	32.1	17.4	n/a	14.6
MSCI World (Net) Index*	9.5	12.4	11.0	13.4	Note 3
S&P/TSX Global Gold Index	24.8	23.2	12.4	1.6	Note 4

* Broad-based index

The MSCI World (Net) Index represents large- and mid-cap equity performance across 23 developed markets. Net total returns are calculated after the deduction of withholding tax from the foreign income and dividends of its constituents.

The S&P/TSX Global Gold Index is designed to provide an investable index of global gold securities. Eligible securities are classified under the gold sub-industry of the Global Industry Classification Standard ("GICS") and include producers of gold and related products, including companies that mine or process gold and the South African finance houses that primarily invest in, but do not operate, gold mines.

- (1) The percentage return differs for each series because the management fee rate and expenses differ for each series.
- (2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.
- (3) The return of the MSCI World (Net) Index since inception for each applicable series is as follows: Series D 11.9%, Series FB 10.6%, Series PW 12.5%, Series PWFB 11.0%, Series PWX 11.7%.
- (4) The return of the S&P/TSX Global Gold Index since inception for each applicable series is as follows: Series D 10.9%, Series FB 16.3%, Series PW 9.8%, Series PWFB 11.9%, Series PWX 8.8%.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2022

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for each of the fiscal periods presented below. If during the period a fund or series was established or reinstated, "period" represents the period from inception or reinstatement to the end of that fiscal period. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

The financial information before July 30, 2021, is based on the performance of the applicable series of the Predecessor Fund, which was merged into the corresponding series of the Fund on that date.

- (1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.
- (2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
- (3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or ETFs), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including exchange-traded funds or ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio, and providing other services. The Manager also used the management fees to fund sales commissions, trailing commissions and any other compensation (collectively "distribution-related payments") to registered dealers and brokers whose clients invest in the Fund.

The following dealers affiliated with the Manager may be entitled to distribution-related payments from the Manager on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation and Investors Group Financial Services Inc.

The Manager used approximately 44% of the total management fee revenues received from all Mackenzie funds during the period to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 38% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

MACKENZIE PRECIOUS METALS FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2022

Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Annual Information Form.

Date of Formation of the Predecessor Fund: October 26, 2000

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*.

Series Offered by Mackenzie Financial Corporation (180 Queen Street West, Toronto, Ontario, M5V 3K1; 1-800-387-0614; www.mackenzieinvestments.com)

Series A securities are offered to retail investors investing a minimum of \$500.

Series D securities are offered to retail investors investing a minimum of \$500 through a discount brokerage or other account approved by Mackenzie.

Series F securities are offered to investors who are enrolled in a dealer-sponsored fee-for-service or wrap program, who are subject to an asset-based fee rather than commissions on each transaction and who invest at least \$500; they are also available to employees of Mackenzie and its subsidiaries, and directors of Mackenzie.

Series FB securities are offered to retail investors investing a minimum of \$500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series O securities are offered only to investors investing a minimum of \$500,000 who are enrolled in Mackenzie Portfolio Architecture Service or Open Architecture Service; certain institutional investors; investors in a qualified group plan, and certain qualifying employees of Mackenzie and its subsidiaries.

Series PW securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000.

Series PWFB securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series PWX securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series I securities are no longer available for sale.

Series Distributed by Quadrus Investment Services Ltd. (255 Dufferin Ave., London, Ontario, N6A 4K1; 1-888-532-3322; www.canadalifeinvest.ca)

Effective March 11, 2022, Series S, Q Series, H Series, HW Series, L Series, N Series, QF Series and QFW Series securities were transitioned to Canada Life Precious Metals Fund, and are no longer offered by the Fund (see *Recent Developments*). Before August 14, 2020, Q Series securities were known as Quadrus Series.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option, various low-load purchase options and a no-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to Mackenzie if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. All deferred sales charge purchase options will cease on or prior to June 2022. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.

Series	Inception/ Reinstatement Date ⁽¹⁾	Management Fees	Administration Fees
