Why Invest in this fund?

- Most attractive risk/return profile in US small/mid cap category.
- Invests in high growth industries not available in Canada, such as the healthcare and technology sectors
- The portfolio manager adds valuable insights through in-depth research in the context of a sparsely covered small- and mid-cap universe
- May use derivatives to hedge their exposure to foreign currencies

* The Russell 2500 (Hedged to CAD) Index measures the performance of the small- to mid-cap segment of the U.S. equity universe. The Index is a subset of the Russell 3000 Index. It includes approximately 2,500 of the smallest securities based on a combination of their market capitalization and current index membership. The foreign currency exposure is hedged back to the Canadian dollar.

** The major holdings of the Fund may, but do not necessarily, represent the largest holdings of the Fund. Rather, the major holdings are selected for their overall significance in evaluating the investment portfolio. Please see mackenzieinvestments.com/currency to view funds/products using currency derivatives to hedge exchange rate risk.
