#### Fee Schedule Estimating Impact of Price Reductions

ALL SERIES | AUGUST 2, 2019

Blue highlight: reduction in fees

Grey highlight: no change in fees

#### **Important Information:**

The new management and administration fees are effective as of August 2, 2019. This means that they will not be fully reflected in a fund's published MER until the semi-annual MER for the period ended September 30, 2020. Changes that occured in June 2018 and September 2018 will also not be reflective on published MER until September 2019.

A fund's MER is made up of the management fee, administration fee and fund costs, if applicable (HST included). The Pro Forma MERs are estimated and calculated with an assumed tax rate of 10.6%, reflecting the current blend of Mackenzie Investments investors in HST and non-HST provinces. The actual tax rate may be higher or lower. Series with "n/a" indicates the MER is not applicable as the series is either inactive, non-existent at the reporting period or the series is payable directly by investors via redemption of units (PWX/O).

The March 31, 2019 MERs of the Mackenzie USD Ultra Short Duration income Fund exclude any waivers.

The March 31, 2019 MERs are Pro Forma estimates for Series PWR.
